Good morning everyone,

Attached to this email are the Section 01c S2SGC Meeting Minutes from our last GC meeting. They have been updated to reflect a few editorial changes; however, the contents remain the same. Because of this update I wanted to resend the minutes to all of you so that you have the latest version that is posted on the GC SharePoint site.

If you have any questions or comments please feel free to contact me. Thank you and have a wonderful week.

Cindy Taber-Lowry Lead Business Analyst

Meeting Schedule/Agenda:

1. Administration

a. Call to order (C Nizer)

The meeting was called to order by Chrissy Nizer.

b. Roll call (C Taber-Lowry)

Roll call was performed by Cindy Taber-Lowry. Arin Diedrich attended the meeting on behalf of Jane Schrank. A quorum was present.

c. Minutes of the previous meeting (C Taber-Lowry)

Cindy presented the minutes of the previous meeting (06/01/2017). The minutes were approved without change.

2. S2S Financial model (P Guiot)

Philippe Guiot presented the S2S Financial model, specifically focusing on FY17 and FY18. He asked members to recommend to the Board allocating FY17 and FY18 net surplus towards the S2S program income. Rick Holcomb made a motion recommending allocating FY17 and FY18 net surplus towards the S2S program income. Steve Leak seconded the motion, which was passed unanimously.

Philippe also covered FY19 fees, specifically pointing out the per state and implementation fee increases. The cost model does include onboarding three more states in 2018 and four additional states per year after 2018. Due to the difficulty in projecting states implementing S2S, AAMVA and the GC have to rely on the information that we currently have; however, once the funding for onboarding state letters have been sent to non-participating S2S states AAMVA will be revisiting FY19 fees. Rick Holcomb made a motion to adopt AAMVA's recommendation that FY19 fees be left as is. Scott Vien seconded the motion, which was passed unanimously. The proposed fee changes will now be presented to the Board in August with all fee changes published in September.

3. Enhancements implementation plan (P Dsa)

Pam Dsa provided an update on the tasks that will be included in a Change Request to be submitted to Mississippi. The project cost estimates are over a three-year period. The AAMVA Executive Committee approved hiring three of the resources within this fiscal year to begin work on the Change Request prior to MS approval. It is expected that these three additional resources will be on board by the end of September. AAMVA asked the GC to approve the usage of S2S reserves that are now set aside in AAMVA's portfolio as a backstop funding for those three additional positions in the off chance that the Mississippi contract is not awarded. Glenn Jackson made a motion to support this request. Marla Thompson seconded the motion, which was passed unanimously.

The GC approved the project scope and schedule so that it can be submitted to Mississippi.

4. S2S Working Group (WG) update (M Lechner)

Sri Prakash gave an overview of the current activities of the S2S WG for Melissa Lechner, who was not able to attend the meeting. Recent discussion topics and use case examples were presented as part of the WG update.

5. State outreach update (C Taber-Lowry)

Cindy provided an update of S2S outreach activities. In an effort to update the S2S Recruitment Matrix she identified lead states for outreach opportunities as well as an update from those lead states who had volunteered to perform outreach activities in the past.

6. Funding for onboarding process (P Guiot)

Philippe presented the funding for onboarding process that AAMVA would like to adopt for those jurisdictions who have not implemented S2S. Implementation fee funding is available for the first nine jurisdictions who successfully implement S2S. As a result of this, Philippe walked the GC members through various implementation scenarios using AAMVA's proposed process.

Members discussed their REAL ID extension letters that were sent by Department of Homeland Security (DHS). During Region I and II Conference, DHS was not clear on what they will require the 42 remaining jurisdictions to have in place in order to be certified as REAL ID compliant. Philippe explained to the members that AAMVA has had that discussion with DHS. At this time, DHS is not expecting all remaining jurisdictions to implement S2S at once; however, they do want to see an active S2S implementation plan in place.

Even though it is an increase in cost, members did suggest that when the funding for onboarding letters are emailed to the jurisdictions that a hard copy of the letter also be mailed with a return receipt required.

As to the five U.S. Territories, Philippe updated the members that AAMVA is actively working on possible solutions that will allow the Territories to join S2S. However, before any solutions are implemented AAMVA will be updating DHS, the S2S Working Group, and the S2S Governance Committee for their feedback and/or approval.

7. Data disclosure notification (C Taber-Lowry)

The Data disclosure notification presentation was provided by Cindy. She covered various state credential applications, WG feedback, existing best practices and additional proposed best practice recommendations. As part of the proposed best practice recommendations, members would like to include a statement that is clear and concise on the use of these best practices be dependent on state statutes and regulations. Marla Thompson made a motion that the existing best practices be updated to include the proposed verbiage. Steve Leak seconded the motion, which was passed unanimously.

8. Collecting statistics (Post-Pilot) (S Prakash)

This topic was not presented due to the interest of time.

9. Proposed meeting agenda and meeting schedule (C Taber-Lowry)

Cindy discussed future S2S Governance Committee meeting topics and dates. She proposed rescheduling the December 21, 2017 meeting due to the holidays, which was agreed upon by all members.

10. New business (C. Nizer)

With no new business brought up, Chrissy adjourned the meeting.

Notes, Decisions, Issues:

Action Items:

Action Item	Assigned To	Due Date
Present fee changes to the AAMVA	AAMVA	Saturday, August 19, 2017

Subject: National Driver Register Cleanfile - September 17, 2017

PDPS Participants:

The National Driver Register will conduct a Cleanfile on September 17th, 2017.

Cleanfile is an optional process. It is a means for jurisdictions to refresh the pointers it has on PDPS. NDR replaces all pointers on the PDPS file with the Cleanfile set of pointers sent by the jurisdiction. In order for a pointer to be included in the Cleanfile, the associated record in the jurisdiction must contain a conviction or withdrawal specified in 23 CFR Part 1327 section 1327.5 (a) or in Appendix A to that rule.

To participate in this Cleanfile, please email NDR by September 6th, 2017, and plan to send your file to NDR no later than September 13th, 2017.

Cleanfiles must be submitted via Secure FTP or FTP. Please schedule a test of SFTP/FTP connectivity with NDR before attempting to send the full Cleanfile.

If you plan to participate in this Cleanfile or if you have any questions please contact the NDR Office by sending an e-mail to NDR Operations@dot.gov<mailto:NDR Operations@dot.gov.

TSA Threat Determination Test Cases

Gary,

We need to go back to Driver A and Driver K after the DB change for Threat Determination for Driver M and N is fixed at your end.

Driver A: (SOR 'AI')

One of the DL Endorsements values provided for Driver A is 'X' (Combined Tank/HAZMAT).

On the 14/3 block I see DL HAZMAT ENDORSEMENT EXP DATE (DDLHED) but DRIVER TSA HME THREAT DETERMINATION (DTHTSD) is blank

Driver K: (OSOR Pseudo State 'P3')

Before the CSOR, Driver K had DL HAZMAT ENDORSEMENT EXP DATE (DDLHED) and DRIVER TSA HME THREAT DETERMINATION (DTHTSD) as '1'.

After the CSOR, the 14/3 block was sent as blank on the HB message

Please let me know if you have any questions.

Thanks, Asma Syeda, PMI-ACP, CSM QA Team Lead AAMVA 4401 Wilson Blvd., Suite 700 Arlington, VA 22203 asyeda@aamva.org

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks, Susan Creighton / 703.908.5893 office

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

This email comes from an external source, so remember, Think Before You Click!

Dillon.

In scenario A -

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "junked" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

- 1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
- 2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued	Additional
			(REC/Junked)	

titled in Alaska	
junked and sold to a new Alaskan owner	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

I have reset the data for the test cases that failed except for the following:

I did not reset TC004 as I am just looking for a good HC. Let me know if you need to re-execute in order to produce the good HC.

For TC009 you will need to redo the CSOT in TC008 which already passed.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issi Date	e New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
2017071	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Subject: RE: AK NMVTIS - TC005

This email comes from an external source, so remember, Think Before You Click! Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,

Susan Creighton / 703.908.5893 office

I have reset the data for the test cases that failed except for the following:

I did not reset TC004 as I am just looking for a good HC. Let me know if you need to re-execute in order to produce the good HC.

For TC009 you will need to redo the CSOT in TC008 which already passed.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issue Date	New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
20170713	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Hi Dillon,

TC005 passed. You are correct the duplicate created does not affect the scenario we were testing for. But please do let me know before you test the test cases that have failed so I can reset them as most will be affected if the data remains the same. I left them as is in case you refuted anything. But if you are okay with them, I can go ahead and reset the ones that I show as failed.

Thanks,

Susan Creighton / 703.908.5893 office

Hello Susan,

Here are screenshots for my most recent execution of TC005. Judging by the R2 returned, it seems like I should've reversed/asked you to reverse AIVALIDVIN1TSTB05 or use a different VIN. Regardless, that's not really the point of the test.

Thank you,

Subject: RE: AK NMVTIS - TC005

This email comes from an external source, so remember, Think Before You Click! Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,

Susan Creighton / 703.908.5893 office

Good afternoon, Fatima,

Thank you for this structured test document. Monica Clemons will be the primary contact for testing. She has created the first three screenshot scenarios and will be sending them to you shortly for review.

Can we please begin the online testing on Monday? And if so, what hours are you available for testing? Or, do we need to be on the same time schedule? With SPEXS this is necessary, but with these few SSOLV tests it may not be, since it appears that all tests are initiated on our end.

Please let us know - thank you!

Subject: AL AK SSOLV testing

Hi Gary,

This is Fatima form AAMVA verification systems QA team. We came to know that AL AK is going through system rewrite. The alternate gap code AL AK will be using is Al AK. Please confirm.

Please be informed that there is a SSOLV test environment. I am in a process of authorizing AL AK to NCS and UNI for accessing SSOLV form the new gap code AI.

We will reach out to SSA and have them authorize AI in their test env so that AL AK can send SSOLV message all the way to SSA even with the alternate gap code. If anything changes, I will keep you posted.

Once the setup is all completed, my colleague Nadeem will assist you in testing as per your convenient. He will share with you the test plan as well.

Please let us know of any question.

Subject: SSOLV testing for AK/AI

Attachments: RequestSubmittal_002.png; ResponseToUser.png; SsolvStatusChange.png

Hello Fatima,

My name is Monica Clemons, and I'll be assisting with the SSOLV structured testing for AK/AI.

I've received the SSOLV test plan. I have attached example screenshots of an emulated (not hooked up to SSOLV) request/response in my local test system. This is just an example of what you can expect to see regarding the other tests, so I can make sure I have all the documentation you need.

Please let me know if you have any questions or need any other data other than these 3 screen shots for each test.

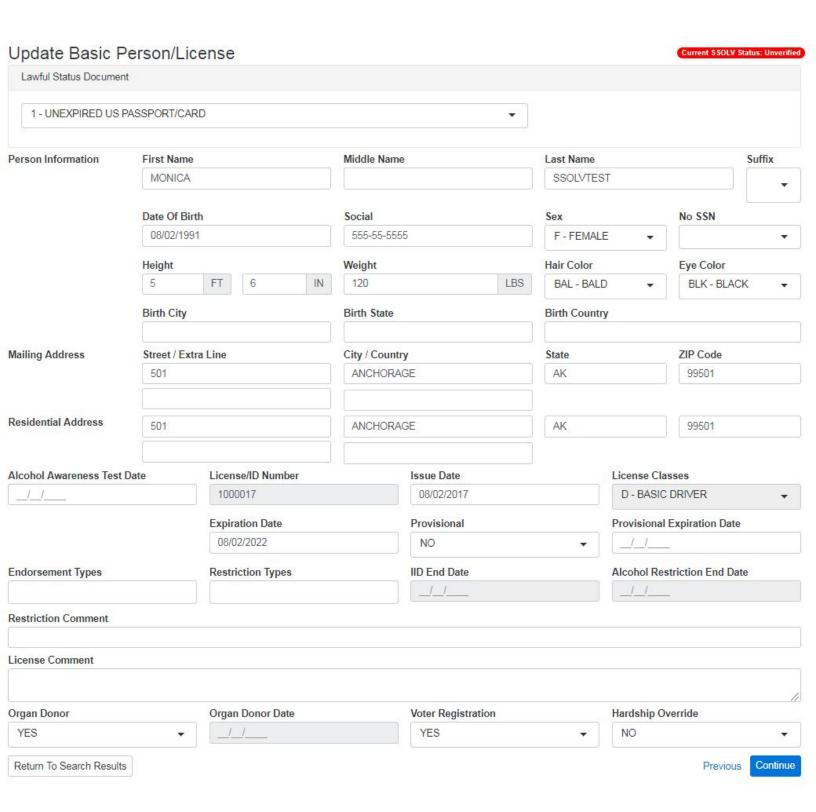

Thank you!

Hi Fatima,

This is excellent news. How soon can we set up structured testing for SSOLV (application 17)?

Cc: Rangaraju, Nalini; Zaidi, Nadeem **Subject:** AL AK SSOLV testing

Hi Gary,

This is Fatima form AAMVA verification systems QA team. We came to know that AL AK is going through system rewrite. The alternate gap code AL AK will be using is Al AK. Please confirm.

Please be informed that there is a SSOLV test environment. I am in a process of authorizing AL AK to NCS and UNI for accessing SSOLV form the new gap code AI.

We will reach out to SSA and have them authorize AI in their test env so that AL AK can send SSOLV message all the way to SSA even with the alternate gap code. If anything changes, I will keep you posted.

Once the setup is all completed, my colleague Nadeem will assist you in testing as per your convenient. He will share with you the test plan as well.

Please let us know of any question.

Thanks,
Fatima Farzana

Good Evening Mina,

Please be informed that Nadeem form verification QA will be testing with AK (AI).

Yes, we can start testing effective 8/7/2017. The testing does not need to be on the same time schedule. Monica can send all the test result according to her convenience, Nadeem will verify those and respond as needed.

Monica: Thank you for sharing the screen shots. Nadeem will verify and get back to you shortly.

Please let us know of any question.

Thanks, Fatima

Subject: RE: AK (AI) SSOLV testing

Good afternoon, Fatima,

Thank you for this structured test document. Monica Clemons will be the primary contact for testing. She has created the first three screenshot scenarios and will be sending them to you shortly for review.

Can we please begin the online testing on Monday? And if so, what hours are you available for testing? Or, do we need to be on the same time schedule? With SPEXS this is necessary, but with these few SSOLV tests it may not be, since it appears that all tests are initiated on our end.

Please let us know – thank you!

MEETING AGENDA and MINUTES ALASKA – STATUS MEETING

Date of Meeting: 8/2/2017

Minutes Prepared By: Susan Creighton

Location: Conference Call – (888) 390-7016 pass code 1509728

Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting (prepare and distribute in advance of meeting)

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Tentative implementation is set for early December 2017.

2. Attendance at Meeting (add rows as necessary)							
Name	Department/Division	Invitee	Attended				
Mina Peters	Alaska	V	$\sqrt{}$				
David Nolen	Alaska	√					
Dillon Pressley	Alaska – Resource Data	√	V				
Joshua Shoemaker	Alaska – Resource Data	√	√				
Patrick Anderson	Alaska – Resource Data	√	V				
Patrick Brosnan	Alaska – Business	√					
Debra Leonardo	Alaska – Business	√					
Katie Smith	Alaska – Business	√					
Casey Garber	AAMVA, Business Solutions	√					
Marney Michalowski	AAMVA, Business Solutions	$\sqrt{}$					
Susan Creighton	AAMVA, Lead Systems Analyst		V				
Amir Chaudhry	AAMVA, Lead Systems Analyst	V					

3. Meeting Agenda (prepare and distribute in advance of meeting)

- Initial Load Questions
- Online Scenario Testing
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

Page 1 of 2

AK had a question regarding the error threshold in the control record for the initial load files. The error threshold is used to stop processing of the entire file if the threshold is reached. States can put the percent of errors they feel is acceptable and if the percent of errors is higher than the threshold the file will not be processed. So in that field you can put 10, 20 or whatever percent you would like. You can also put 99 which indicates that the file will be processed regardless of the number of errors.

AK has completed their fix and has resumed online scenario testing.

Online Scenario testing status. 83 total online scenario testing cases:

47 Test Cases have passed, 5 Test Cases are in failed status, 2 are with AAMVA to be validated and 31 have not been executed.

Once all the test cases have passed for the online scenario testing, we will do a regression test of about 20 – 25 test cases to ensure that as defects were fixed, test cases that passed before still work.

NEXT STEPS:
Complete first pass of online scenario testing
Regression test online scenario testing
AAMVA create initial load test case plan
Structured testing of the initial load process

			(add rows as necessary)	5. Action Items
te Status	Due Date	Assigned to		Action
-				

med herrie er impaet ti	nat regaine action,	
Owner	Due Date	Status
		Owner Due Date

7. Next I	Meeting					
Date: (MM/L	DD/CCYY)	8/9/2017	Time:	4:30 pm – 5:30 pm ET	Location:	Jaguar Conference Room
Agenda: Will be Sent out Prior to Meeting

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click! Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Cc: Creighton, Susan < screighton@aamva.org > Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click! Dillon,

In scenario A -

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions -

Thank you,

Debra L. Leonardo, Office Manager III Motor Vehicle Solutions 907-451-5191 voice 907-451-5192 fax

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "junked" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

- 1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
- 2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title
				issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Thank you,

Subject: AK- MPR Summary Report

Title:

CD90.7.2 MPR Summary Report

Timing:

Monthly

Regulation:

§ 384.207: Notification of Licensing

Within the period defined in § 383.73(h) of this subchapter, the State must:

- (a) Notify the operator of the CDLIS of each CLP or CDL issuance;
- (b) Notify the operator of the CDLIS of any changes in driver identification information; and
- (c) In the case of transfer issuances, implement the Change State of Record transaction, as specified by the operator of the CDLIS, in conjunction with the previous State of record and the operator of the CDLIS.

Transactions:

Add Driver (UA); Change State of Record (UD); Delete Driver (UE)

Purpose:

*This report displays summary information for the Master Pointer Records (MPRs) for a State of Record. The summary includes the addition of the new MPRs to the SOR, number of Change State of Records from and to the SOR, and the number of MPRs deleted. The subtotal of MPRs added or deleted to the State's MPR count for the month is also provided. It displays the total count of Master Pointer Records (MPRs) currently present in CDLIS and the percentage of Master Pointer Records (MPRs) the state has in CDLIS.

Report Sections:

Header: Report filter information

Detail: The MPR(s) added and removed for a State of Record

Summary Section:

- * Total number of new MPR(s) added
- * Total number of Change State of Record (CSOR) moved into State
- * Subtotal of MPR(s) added to State's Total MPR Count
- * Total number of MPR(s) deleted
- * Total number of Change State of Record (CSOR) moved out of State
- * Subtotal of MPR(s) removed from State's Total MPR Count
- * MPR Count as of Report Date
- * Total number of MPR(s) in CDLIS as of Report End Date
- * 'ST' Percentage (%) as of Report End Date

<u>NOTE</u>: The current MPR Summary Report for your state does not include the CDL status change of the Master Pointer Records (MPRs) i.e. the number of records that have upgraded to a CDLIS MPR and the number of records that have downgraded from a CDLIS MPR which impact the CDLIS MPR count at the Central Site. AAMVA is currently working on implementing a new report to include these counts.

Thanks,

Jessie Rogers | Senior Operations Analyst | AAMVA | 4401 Wilson Blvd., Suite 700 Arlington, Va. 22203 | 703.908.8264 | jrogers@aamva.org | www.aamva.org

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver J

Gary,

I couldn't find the pointer for Driver J (DLN '7395325') in the DB, it might have been deleted.

Can you do # J1/J2/J3.

SB was sent back with:

022011708031037210000 1UNISB 01 2 H 09101AK7395325 251011510 NOT CURRENT SOR

Shouldn't the SB be sent with error 'REQUESTED RECORD NOT FOUND'.

Can you please look.

Thanks, Asma

Sorry for the delay. This appeared to be a simple fix but there is more involved in capturing the court type.

Would you prefer I make the fix, which should be less than an hour, or would you like to move on? Since drivers M and N require hazmat determination we would need to jump up to Driver O.

This will require further investigation. When receiving an ROOSC, the pertinent out of state values are saved; however, I am unclear how they are populated when entering an OOS conviction per step J1.

We may need to move on to a new driver scenario.... M?

This email comes from an external source, so remember, Think Before You Click!

Gary,

Can I send # J8?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Tuesday, August 1, 2017 11:05 AM **To:** Syeda, Asma <<u>ASyeda@aamva.org</u>>

Cc: Singaraju, Sruti <ssingaraju@aamva.org>; Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver J

Sorry for the delay. This appeared to be a simple fix but there is more involved in capturing the court type.

Would you prefer I make the fix, which should be less than an hour, or would you like to move on? Since drivers M and N require hazmat determination we would need to jump up to Driver O.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Sent: Tuesday, August 01, 2017 6:22 AM **To:** Gary Tancik < Gtancik@resdat.com>

Cc: Singaraju, Sruti <ssingaraju@aamva.org>; Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver J

This email comes from an external source, so remember, Think Before You Click! Gary,

H3 was in error "INVALID CONVICTION COURT TYPE".

Can you please look.

Thanks, Asma

This email comes from an external source, so remember, Think Before You Click! Gary,

I couldn't find the pointer for Driver J (DLN '7395325') in the DB, it might have been deleted.

Can you do # J1/J2/J3.

SB was sent back with:

022011708031037210000 1UNISB 01 2 H 09101AK7395325 251011510 NOT CURRENT SOR

Shouldn't the SB be sent with error 'REQUESTED RECORD NOT FOUND'.

Can you please look.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver J

This email comes from an external source, so remember, Think Before You Click! Gary,

I couldn't find the pointer for Driver J (DLN '7395325') in the DB, it might have been deleted.

Can you do # J1/J2/J3.

SB was sent back with:

022011708031037210000 1UNISB 01 2 H

09101AK7395325 251011510 NOT CURRENT SOR

Shouldn't the SB be sent with error 'REQUESTED RECORD NOT FOUND'.

Can you please look.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver J

This email comes from an external source, so remember, Think Before You Click! Gary,

I couldn't find the pointer for Driver J (DLN '7395325') in the DB, it might have been deleted.

Can you do # J1/J2/J3.

SB was sent back with:

022011708031037210000 1UNISB 01 2 H 09101AK7395325 251011510 NOT CURRENT SOR

Shouldn't the SB be sent with error 'REQUESTED RECORD NOT FOUND'.

Can you please look.

Thanks, Asma

Sorry for the delay. This appeared to be a simple fix but there is more involved in capturing the court type.

Would you prefer I make the fix, which should be less than an hour, or would you like to move on? Since drivers M and N require hazmat determination we would need to jump up to Driver O.

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.

DMV00047864

006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,

Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click! Hi ,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks.

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Dillon Salsman-Pressley • Programmer Analyst **Resource Data, Inc.** People • Technology • Results

This email comes from an external source, so remember, Think Before You Click!

Dillon,

In scenario A –

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions -

Thank you,

Debra L. Leonardo, Office Manager III Motor Vehicle Solutions 907-451-5191 voice 907-451-5192 fax

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "junked" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

- 1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
- 2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Jan a.Dan				
Date	Event	Title Issue (Yes/No)	Brands Issued	Additional
			(REC/Junked)	
01/01/2014	A new vehicle is titled in	Yes	N/A	N/A
	Alaska			

01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Sent the UG but it was returned in error: SSN TYPE DOES NOT MATCH

I am not sure why this is an error since the SSN type is A for both pointers. Please advise.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Yes Gary, I saw that, and I was investigating ...

Sure, we can start Driver J in the meantime.

Replying on Driver J email chain.

Thanks, Asma

Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issue Date	New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
20170713	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Subject: RE: AK NMVTIS - TC005

Hi Dillon,

TC005 passed. You are correct the duplicate created does not affect the scenario we were testing for. But please do let me know before you test the test cases that have failed so I can reset them as most will be affected if the data remains the same. I left them as is in case you refuted anything. But if you are okay with them, I can go ahead and reset the ones that I show as failed.

Thanks,

Subject: RE: AK NMVTIS - TC005

This email comes from an external source, so remember, Think Before You Click! Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: S2S Working Group Meeting

Good evening all,

Thank you for your participation in the S2S WG meeting. Sorry for the delay.

- Attached please find the minutes from Tuesday's Working Group call.
- The purpose of this meeting is to provide states with an opportunity for sharing information and suggestions related to S2S, discuss technical issues, potential duplicate resolution process, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send them to me prior to the next call.
- Please note that our next meeting is scheduled for **Tuesday**, **Aug 1**st, **at 1:00pm eastern**.

Refer to the sharepoint link for all materials related to S2S WG calls at

https://share.aamva.org/driver/dl/s2swg/S2S%20Working%20Group%20Meeting%20Materials/Forms/AllItems.aspx

Thanks

Srividhya Prakash,

Subject: RE: S2S Working Group Meeting

Good evening all,

Thank you for your participation in the S2S WG meeting.

- Attached please find the minutes from Tuesday's Working Group call.
- The purpose of this meeting is to provide states with an opportunity for sharing information and suggestions related to S2S, discuss technical issues, potential duplicate resolution process, etc. The agenda topics will be driven entirely by you, the States. Please consider additional topics that you would like to discuss, and if possible, send them to me prior to the next call.
- Please note that our next meeting is scheduled for Tuesday, July 11th, at 2:00pm eastern.

Refer to the sharepoint link for all materials related to S2S WG calls at

https://share.aamva.org/driver/dl/s2swg/S2S%20Working%20Group%20Meeting%20Materials/Forms/AllItems.aspx

<< File: S2S-WG-Meeting-Minutes-06202017.docx >> Thanks,

Srividhya Prakash,

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles Mina.Peters@alaska.gov

Cc: Singaraju, Sruti < ssingaraju@aamva.org>; Mina Peters, AK Dept. of Administration < mina.peters@alaska.gov> **Subject:** RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

For Withdrawal ACD Code 'W28', the DL Withdrawal Eligibility date must be 'INDEF':

CD16.XCK.HW.130 0 Driver License ACD Withdrawal Reason Code (DWDWRS) Drv Lic Withdrawal Eligibility Date (DWDWDE)	CLMF-CODE-WDRAW-REASON Format=Alpha-numeric Size=3 CLMF-DATE-WDRAW-ELIG Format=ccyymmdd Size=8	If Driver License ACD Withdrawal Reason Code (DWDWRS) value is 'W2' 'W28', then Drv Lic Withe Eligibility Code must be 'Indefinite'
--	---	---

Thanks, Asma

Gary,
We can definitely start with Driver P.
Co. if there are any issues these can be fived as next of the angeling bug fives
So, if there are any issues, these can be fixed as part of the ongoing bug fixes.
Please let me know.
Thanks,
Asma

Cabjeot. Re. At - of EAC 6.0 Bascinic Offucialed test plan - 11 -briver O
Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF

for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

This email comes from an external source, so remember, Think Before You Click! Gary,

For Withdrawal ACD Code 'W28', the DL Withdrawal Eligibility date must be 'INDEF':

CD16.XCK.HW.130	Driver License ACD	CLMF-CODE-	If Driver License ACD
0	Withdrawal Reason	WDRAW-	Withdrawal Reason Code
	Code (DWDWRS)	REASON	(DWDWRS) value is 'W2'
	101 02-01	Format=	'W28', then Drv Lic With
		Alpha-numeric	Eligibility Code must be
	Drv Lic Withdrawal	Size=3	'Indefinite'
	Eligibility Date (DWDWDE)		
	**************************************	CLMF-DATE-	
		WDRAW-ELIG	
		Format=	
		ccyymmdd	
		Size=8	

Thanks, Asma

Gary,

For Withdrawal ACD Code 'W28', the DL Withdrawal Eligibility date must be 'INDEF':

CD16.XCK.HW.130	Driver License ACD	CLMF-CODE-	If Driver License ACD
0	Withdrawal Reason	WDRAW-	Withdrawal Reason Code
	Code (DWDWRS)	REASON	(DWDWRS) value is 'W2'
	\$ S\$	Format=	'W28', then Drv Lic With
		Alpha-numeric	Eligibility Code must be
	Drv Lic Withdrawal	Size=3	'Indefinite'
	Eligibility Date		
	(DWDWDE)		
		CLMF-DATE-	
		WDRAW-ELIG	
		Format=	
		ccyymmdd	
		Size=8	

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

I have reset the data for the test cases that failed except for the following:

I did not reset TC004 as I am just looking for a good HC. Let me know if you need to re-execute in order to produce the good HC.

For TC009 you will need to redo the CSOT in TC008 which already passed.

Thanks,

Susan Creighton / 703.908.5893 office

Cc: Garber, Casey; Mina Peters, AK Dept. of Administration; Patrick Anderson; David Nolen, AK Dept. of Administration

Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issue Date	New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
20170713	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Hi Dillon,

TC005 passed. You are correct the duplicate created does not affect the scenario we were testing for. But please do let me know before you test the test cases that have failed so I can reset them as most will be affected if the data remains the same. I left them as is in case you refuted anything. But if you are okay with them, I can go ahead and reset the ones that I show as failed.

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC005

This email comes from an external source, so remember, Think Before You Click! Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,

Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,

Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click! Hi ,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

This email comes from an external source, so remember, Think Before You Click! Dillon,

In scenario A – 1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions -

Thank you,

Debra L. Leonardo, Office Manager III Motor Vehicle Solutions 907-451-5191 voice 907-451-5192 fax

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "junked" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

- 1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
- 2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original?

1		Perform no title
		issued to change
		owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes

junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

Thank you,

Cc: Mina Peters, AK Dept. of Administration mina.peters@alaska.gov; Singaraju, Sruti ssingaraju@aamva.org

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

This email comes from an external source, so remember, Think Before You Click! Gary,

We can definitely start with Driver P.

So, if there are any issues, these can be fixed as part of the ongoing bug fixes.

Please let me know.

Thanks, Asma

Sent: Tuesday, August 1, 2017 12:09 PM **To:** Syeda, Asma <<u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Asma,

Just to let you know I'm investigating a problem with creating a credential for a test driver. We've recently enabled the system for SSN SSOLV validation and I need to work with the team to understand our test environment.

Sorry for the delay.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Cc: Mina Peters, AK Dept. of Administration < mina.peters@alaska.gov >; Singaraju, Sruti < ssingaraju@aamva.org >

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

This email comes from an external source, so remember, Think Before You Click! Gary,

We can definitely start with Driver P.

So, if there are any issues, these can be fixed as part of the ongoing bug fixes.

Please let me know.

Thanks, Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Tuesday, August 1, 2017 12:09 PM **To:** Syeda, Asma <<u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

1

Document ID: 0.7.1187.21019 DMV00048471

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Yes Gary, I saw that, and I was investigating ...

Sure, we can start Driver J in the meantime.

Replying on Driver J email chain.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: Updated CDL Test system materials

Good Morning:

To:

The CDL Driver Manual and Change History were uploaded to the Test Experts & Trainers SharePoint Site yesterday. The Knowledge Test Item Pool and Change History will be uploaded to the CDL Coordinator's SharePoint site on Monday, August 7th. The Examiners Manual, Change History and Updated Score forms should be uploaded by the end of next week.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters
Analyst Programmer V
State of Alaska
Division of Motor Vehicles
Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters
Analyst Programmer V

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles Mina.Peters@alaska.gov

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters
Analyst Programmer V
State of Alaska
Division of Motor Vehicles
Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters
Analyst Programmer V
State of Alaska
Division of Motor Vehicles
Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

4

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Asma,

Sorry, I will not be available for testing today as mentioned in a previous email. I will be ready tomorrow at the usual time.

Thanks Gary

This email comes from an external source, so remember, Think Before You Click! Gary,

We need to make a change at our end for AI to receive 15 H* responses.

Our development team is looking into it right now, this might take some time.

Will let you know once done.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles Mina.Peters@alaska.gov

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Gary,

We might have to come back to # P1.

I will let you know when to send # P2.

Cc: Singaraju, Sruti <ssingaraju@aamva.org>; Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Yes Gary, I saw that, and I was investigating ...

Sure, we can start Driver J in the meantime.

Replying on Driver J email chain.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters
Analyst Programmer V
State of Alaska
Division of Motor Vehicles

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Hi Gary,
Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document typesAlthough AK does not allow for SSN type P, we must work with other states that do.
Regards,
Mina Peters

Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

9

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

This email comes from an external source, so remember, Think Before You Click!

Gary,

We need to make a change at our end for AI to receive 15 H* responses.

Our development team is looking into it right now, this might take some time.

Will let you know once done.

Thanks,

Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Sent the UG but it was returned in error: SSN TYPE DOES NOT MATCH

I am not sure why this is an error since the SSN type is A for both pointers. Please advise.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters Analyst Programmer V State of Alaska Division of Motor Vehicles Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Hello Susan,

I can and have manually corrected the title date, but I'm not sure how the record got to be this way and the last modification to the record was on July 6th.

I think we should reset this one as well. Resetting to before or after the correction on your side both work for me.

Thank you,

Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issue Date	New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
20170713	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Hi Dillon,

TC005 passed. You are correct the duplicate created does not affect the scenario we were testing for. But please do let me know before you test the test cases that have failed so I can reset them as most will be affected if the data remains the same. I left them as is in case you refuted anything. But if you are okay with them, I can go ahead and reset the ones that I show as failed.

Thanks,

Subject: RE: AK NMVTIS - TC005

This email comes from an external source, so remember, Think Before You Click! Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the

history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,

Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember. Think Before You Click!

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.
027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks, Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click! Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,

Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

This email comes from an external source, so remember, Think Before You Click!

Dillon,

In scenario A -

1/1/2015 is correct

1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions -

Thank you,

Debra L. Leonardo, Office Manager III Motor Vehicle Solutions 907-451-5191 voice 907-451-5192 fax

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "junked" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

- 1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.
- Reconstructed is the only brand which will ever physically appear on a printed title. A reconstructed brand is
 issued when titling a vehicle that is branded as reconstructed in another state, or when a junked vehicle has
 met criteria to be presently considered reconstructed.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A

01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message.
	Alaskali Owliei			Does the model remain REC or return to original?
				Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message. Does the model remain REC or return to original?

I'm sorry. Yes, P1 looks good. I did not see any problems with the H messages.

Just to let you know, I am fixing the alias SSN type/last 5 digit parameter issue and am hoping to deploy it within the hour. Hopefully we can complete driver O today.

The data base fix for the N restriction as well as the hazmat threat determination will be loaded later today.

The CSOR in-progress issue for Driver D will also be tested today so am anticipating it will be ready by Monday.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Hi Gary,

Just to confirm, when doing a CSOR, we need to capture the SSN type, last 5 SSN, document type, and Real ID indicator, Name, DOB from the pointer in addition to the other state code and DLN, and retain it so it can be used on all ensuing

messages. Just like real ID and Permit document types...Although AK does not allow for SSN type P, we must work with other states that do.

Regards,

Mina Peters
Analyst Programmer V
State of Alaska
Division of Motor Vehicles
Mina.Peters@alaska.gov

Faster, friendlier, more accessible.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

This email comes from an external source, so remember, Think Before You Click! Gary,

The Duplicate SSN Type is 'P' for Test Case # P4.

I just wanted to bring to your attention that the valid values for Duplicate SSN Types are 'A', 'P', 'S' since you are changing the code.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver P

Unfortunately we have a validation in place preventing entry of a pseudo SSN. This requires a code change.

At this point the only other bug that has been fixed is the INDEF withdrawal eligibility date, for test O3. However, it has not been deployed yet. This may take up to an hour. Is that ok?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Gary,

AKA SSN /AKA Last 5 SSN and AKA SSN Type looks fine for # O11.

The HB message was sent with SSN (DDVSS6) as '188826666' but as per the DB, the SSN is '988826666' for Driver O.

Can you please look.

Thanks, Asma

Cc: Mina Peters, AK Dept. of Administration mina.peters@alaska.gov; Singaraju, Sruti ssingaraju@aamva.org

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

This email comes from an external source, so remember, Think Before You Click! Gary,

AKA SSN /AKA Last 5 SSN and AKA SSN Type looks fine for # O11.

The HB message was sent with SSN (DDVSS6) as '188826666' but as per the DB, the SSN is '988826666' for Driver O.

Can you please look.

Thanks, Asma

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Gary,

Yes, I remember.

But, the MPR shows the primary SSN as '988826666', and HB as '188826666'.

So wanted to check with you this discrepancy.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

The HW was returned in error, THE MSTR PTR REC RQSTD NOT ON FILE.

It appears the pointer values match the test case description. Can you please take a look?

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Cc: Peters, Mina L (DOA); Singaraju, Sruti

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Attachments: UD.txt

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Peters, Mina L (DOA); Singaraju, Sruti Cc:

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Gary,

I have to look at this in more detail and run with my BA team.

Can I send # O12?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:58 PM To: Syeda, Asma < ASyeda@aamva.org>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Sent: Friday, August 04, 2017 10:40 AM To: Gary Tancik < Gtancik@resdat.com>

Cc: Mina Peters, AK Dept. of Administration mina.peters@alaska.gov; Singaraju, Sruti ssingaraju@aamva.org

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

Yes, I remember.

But, the MPR shows the primary SSN as '988826666', and HB as '188826666'.

So wanted to check with you this discrepancy.

Thanks, Asma

Cc: Mina Peters, AK Dept. of Administration mina.peters@alaska.gov; Singaraju, Sruti ssingaraju@aamva.org

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

This email comes from an external source, so remember, Think Before You Click! Gary,

I have to look at this in more detail and run with my BA team.

Can I send # O12?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:58 PM **To:** Syeda, Asma < <u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Cc: Mina Peters, AK Dept. of Administration mina.peters@alaska.gov; Singaraju, Sruti ssingaraju@aamva.org

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

This email comes from an external source, so remember, Think Before You Click! Gary,

I have to look at this in more detail and run with my BA team.

Can I send # O12?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:58 PM To: Syeda, Asma <ASyeda@aamva.org>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

Gary,

I have to look at this in more detail and run with my BA team.

Can I send # O12?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:58 PM **To:** Syeda, Asma <<u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration < <u>mina.peters@alaska.gov</u>>; Singaraju, Sruti < <u>ssingaraju@aamva.org</u>>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

Yes, I remember.

But, the MPR shows the primary SSN as $\,^{\prime}988826666^{\prime}$, and HB as $\,^{\prime}188826666^{\prime}$.

So wanted to check with you this discrepancy.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

AKA SSN /AKA Last 5 SSN and AKA SSN Type looks fine for # O11.

The HB message was sent with SSN (DDVSS6) as '188826666' but as per the DB, the SSN is '988826666' for Driver O.

Can you please look.

Thanks, Asma

Gary,

For Withdrawal ACD Code 'W28', the DL Withdrawal Eligibility date must be 'INDEF':

CD16.XCK.HW.130	Driver License ACD	CLMF-CODE-	If Driver License ACD
0	Withdrawal Reason	WDRAW-	Withdrawal Reason Code
	Code (DWDWRS)	REASON	(DWDWRS) value is 'W2'
	\$ 500 E	Format=	'W28', then Drv Lic With
		Alpha-numeric	Eligibility Code must be
	Drv Lic Withdrawal	Size=3	'Indefinite'
	Eligibility Date		
	(DWDWDE)		
		CLMF-DATE-	
		WDRAW-ELIG	
		Format=	
		ccyymmdd	
		Size=8	

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

I have to look at this in more detail and run with my BA team.

Can I send # O12?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:58 PM **To:** Syeda, Asma <<u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Sent: Friday, August 04, 2017 10:40 AM To: Gary Tancik < Gtancik@resdat.com>

Cc: Mina Peters, AK Dept. of Administration < mina.peters@alaska.gov >; Singaraju, Sruti < ssingaraju@aamva.org >

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

Yes, I remember.

But, the MPR shows the primary SSN as '988826666', and HB as '188826666'.

So wanted to check with you this discrepancy.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

Cc: Mina Peters, AK Dept. of Administration < mina.peters@alaska.gov >; Singaraju, Sruti < ssingaraju@aamva.org >

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

We can definitely start with Driver P.

So, if there are any issues, these can be fixed as part of the ongoing bug fixes.

Please let me know.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

REGION I NEWS

Four Clerks From Haymarket RMV Arrested In Alleged Identity Theft Scheme (Massachusetts)

Six people were arrested Wednesday and charged in federal court with allegedly providing stolen identification cards, drivers's licenses, and other documents to undocumented immigrants through a Registry of Motor Vehicles office in Boston, according to the US attorney's office. Read the article in bostonglobe.com.

New Hampshire DMV Announces Changes Coming To State Inspection Stickers

The New Hampshire Division of Motor Vehicles announced Tuesday that it will be changing both the look and location of state inspection stickers this year. Starting October 1, inspection stickers will be placed in the lower, driver side corner of a vehicle's windshield. Read the article at wmur.com.

NJ Assembly Approves New Driver's License Requirements

New Jersey lawmakers voted Monday to advance legislation adding new requirements to the state's graduated driver's license program for both teenage drivers and their parents. The proposed changes would be the first update to the state's GDL system in seven years and would require young, novice drivers to undergo more supervised practice before graduating to a probationary license. Read the article at burlingtoncountytimes.com.

MVC Unveils New Parking Placards for Disabled Veterans and Purple Heart Recipients (New Jersey)

New Jersey Motor Vehicle Commission (MVC) Chairman and Chief Administrator Raymond P. Martinez gathered with representatives from the New Jersey Department of Military and Veterans Affairs and local veterans groups at VFW Post 1333 in Asbury Park to announce the availability of new placards for disabled veterans and Purple Heart recipients which will exempt them from municipal parking meter fees. Read the press release for more details.

New York Law Requiring Hand On Wheel Stymies Pace Of Self-Driving Cars

In Arizona, Google's spinoff company is looking to enroll hundreds of people for free rides in self-driving vehicles. In California, 36 companies — including Intel, Toyota, Uber and Ford – have been approved over the past three years to conduct tests on autonomous vehicles. Read the article at buffalonews.com.

Pennsylvania Lawmaker Pens Hands-Free Driving Bill

A Pennsylvania legislator is proposing a law to ban drivers from talking on cell phones unless they're using a hands-free accessory. Read the article at abc27.com.

California Reviews Gasoline Vehicles For Pollution: Official

The California environmental agency that probed Volkswagen AG's diesel vehicles for violating pollution-control rules is now scrutinizing whether some gasoline-powered vehicles are emitting excess pollution, according to a senior official. Read more at reuters.com.

DMV Workers Charged With Embezzlement (California)

Two former employees of the state Department of Motor Vehicles office in Weaverville have been charged with embezzlement, and a bench warrant has been issued for one who failed to appear in court. An investigator's report included in an arrest warrant affidavit on file at the Trinity County Courthouse details the investigation that led to the charges against Joanne Lynn Hall, 56, of Hayfork, and Tracy Coahran, 50, whose address is listed as Hayfork or Douglas City. Read the article in trinityjournal.com.

Colorado Has List Of Banned License Plates, And Some Are Head Scratchers

Do you like Tabasco sauce, consider yourself a lovable nerd or have an undying

affection for Pepsi products? If so, expressing yourself, at least via personalized license plates, may be difficult. Read the article at greeleytribune.com.

Nevada Officials Say Autonomous-Truck Era Drawing Near

April Sanborn was part of the Nevada Department of Motor Vehicles in 2011 when the state became the first to adopt regulations allowing the testing of autonomous vehicles. Read the article at fleetowner.com.

OTHER NEWS

Congress Is Heading for a Confrontation With Sessions Over Marijuana

Congress is heading for a confrontation with Attorney General Jeff Sessions over pot. Sessions is seeking to crack down on marijuana use while lawmakers from both parties are pushing legislation that would do the opposite. Read the article at bloomberg.com.

Adults Less Likely To Use Seat Belts In Hired Cars, Survey Finds

A new survey reveals more than a quarter of adults don't always buckle up in the back seat. Research by the Insurance Institute for Highway Safety found 91 percent of adults say they always wear their seatbelt in the front seat, but only 57 percent buckle up in hired vehicles like taxis. Read the article at cbsnews.com.

Teen Drivers Become More Reckless With Age, Study Says

U.S. teenagers are more reckless after their first few years of driving, often becoming overconfident in their abilities and putting themselves at higher risk for accidents, a new study shows. Read the article at bloomberg.com.

States Urged to Utilize Updated Traffic Crash Guideline for Better Data Collection and Reporting

With traffic fatalities on the rise, guidance on how to collect high-quality crash data becomes ever more important. Developed cooperatively by the Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA), the Model Minimum Uniform Crash Criteria (MMUCC) 5th Edition guideline has been updated to reflect the latest behavioral and technological changes impacting vehicles, drivers, and front-line data collectors. Read the GHSA press release for more details.

Self-Driving Car Demo Is The First To Cross The US- Canada Border

As a rule, self-driving car tests tend to be limited to the country where they started. But that's not how people drive -- what happens when your autonomous vehicle crosses the border? Continental and Magna plan to find out. Read the article at engadget.com.

Significant Spike In Opioid-Related Car Crash Deaths

In yet another sign of just how deadly the U.S. opioid epidemic has become, researchers report a sevenfold increase in the number of drivers killed in car crashes while under the influence of prescription painkillers. Read the article at cbsnews.com.

Federal Bills to Speed Arrival of Self-Driving Cars Could Create Safety Loopholes

As Congress considers the first federal legislation to speed development of self-driving cars, the proposed standards would be a wholesale shift in how the government guarantees safety on the roads. View the article at consumerreports.com.

Toyota Invests \$5M In Michigan Driverless Vehicle Testing Center

Toyota will be the first automaker to invest in the American Center for Mobility. The Japanese automaker's Toyota Motor North America and Toyota Research Institute subsidiaries are contributing \$5 million to the self-driving vehicle research center being built in Ypsilanti Township. Read the article at govtech.com.

Minnesota Planners Begin To Envision Driverless Future

Minnesota is beginning to confront what promises to be the biggest shift in urban living since cars arrived in cities a century ago: The moment drivers let go of the wheel for good. Read the article at startribune.com.

Missouri Banned License Plate List Grows

Missouri's database of banned character combinations on license plates has grown over the past 40 years to include more than 7,000 arrangements of letters and numbers deemed too offensive. Read the article at usnews.com.

Missouri Lags, Illinois Nears, Real ID Compliance

Missouri was late to the party in converting to Real ID standards, so residents should not expect to see many changes in the near future. Gov. Eric Greitens signed legislation last month to bring the state in compliance with the federal law that was passed in 2005. Read the article at whig.com.

REGION IV NEWS

California Reviews Gasoline Vehicles For Pollution: Official

The California environmental agency that probed Volkswagen AG's diesel vehicles for violating pollution-control rules is now scrutinizing whether some gasoline-powered vehicles are emitting excess pollution, according to a senior official. Read more at reuters.com.

DMV Workers Charged With Embezzlement (California)

Two former employees of the state Department of Motor Vehicles office in Weaverville have been charged with embezzlement, and a bench warrant has been issued for one who failed to appear in court. An investigator's report included in an arrest warrant affidavit on file at the Trinity County Courthouse details the investigation that led to the charges against Joanne Lynn Hall, 56, of Hayfork, and Tracy Coahran, 50, whose address is listed as Hayfork or Douglas City. Read the article in trinityjournal.com.

Colorado Has List Of Banned License Plates, And Some Are Head Scratchers

Do you like Tabasco sauce, consider yourself a lovable nerd or have an undying

affection for Pepsi products? If so, expressing yourself, at least via personalized license plates, may be difficult. Read the article at greeleytribune.com.

Nevada Officials Say Autonomous-Truck Era Drawing Near

April Sanborn was part of the Nevada Department of Motor Vehicles in 2011 when the state became the first to adopt regulations allowing the testing of autonomous vehicles. Read the article at fleetowner.com.

OTHER NEWS

Congress Is Heading for a Confrontation With Sessions Over Marijuana

Congress is heading for a confrontation with Attorney General Jeff Sessions over pot. Sessions is seeking to crack down on marijuana use while lawmakers from both parties are pushing legislation that would do the opposite. Read the article at bloomberg.com.

Adults Less Likely To Use Seat Belts In Hired Cars, Survey Finds

A new survey reveals more than a quarter of adults don't always buckle up in the back seat. Research by the Insurance Institute for Highway Safety found 91 percent of adults say they always wear their seatbelt in the front seat, but only 57 percent buckle up in hired vehicles like taxis. Read the article at cbsnews.com.

Teen Drivers Become More Reckless With Age, Study Says

U.S. teenagers are more reckless after their first few years of driving, often becoming overconfident in their abilities and putting themselves at higher risk for accidents, a new study shows. Read the article at bloomberg.com.

States Urged to Utilize Updated Traffic Crash Guideline for Better Data Collection and Reporting

With traffic fatalities on the rise, guidance on how to collect high-quality crash data becomes ever more important. Developed cooperatively by the Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA), the Model Minimum Uniform Crash Criteria (MMUCC) 5th Edition guideline has been updated to reflect the latest behavioral and technological changes impacting vehicles, drivers, and front-line data collectors. Read the GHSA press release for more details.

Self-Driving Car Demo Is The First To Cross The US- Canada Border

As a rule, self-driving car tests tend to be limited to the country where they started. But that's not how people drive -- what happens when your autonomous vehicle crosses the border? Continental and Magna plan to find out. Read the article at engadget.com.

Significant Spike In Opioid-Related Car Crash Deaths

In yet another sign of just how deadly the U.S. opioid epidemic has become, researchers report a sevenfold increase in the number of drivers killed in car crashes while under the influence of prescription painkillers. Read the article at cbsnews.com.

Federal Bills to Speed Arrival of Self-Driving Cars Could Create Safety Loopholes

As Congress considers the first federal legislation to speed development of self-driving cars, the proposed standards would be a wholesale shift in how the government guarantees safety on the roads. View the article at consumerreports.com.

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

REGION I NEWS

Four Clerks From Haymarket RMV Arrested In Alleged Identity Theft Scheme (Massachusetts)

Six people were arrested Wednesday and charged in federal court with allegedly providing stolen identification cards, drivers's licenses, and other documents to undocumented immigrants through a Registry of Motor Vehicles office in Boston, according to the US attorney's office. Read the article in bostonglobe.com.

New Hampshire DMV Announces Changes Coming To State Inspection Stickers

The New Hampshire Division of Motor Vehicles announced Tuesday that it will be changing both the look and location of state inspection stickers this year. Starting October 1, inspection stickers will be placed in the lower, driver side corner of a vehicle's windshield. Read the article at wmur.com.

NJ Assembly Approves New Driver's License Requirements

New Jersey lawmakers voted Monday to advance legislation adding new requirements to the state's graduated driver's license program for both teenage drivers and their parents. The proposed changes would be the first update to the state's GDL system in seven years and would require young, novice drivers to undergo more supervised practice before graduating to a probationary license. Read the article at burlingtoncountytimes.com.

MVC Unveils New Parking Placards for Disabled Veterans and Purple Heart Recipients (New Jersey)

New Jersey Motor Vehicle Commission (MVC) Chairman and Chief Administrator Raymond P. Martinez gathered with representatives from the New Jersey Department of Military and Veterans Affairs and local veterans groups at VFW Post 1333 in Asbury Park to announce the availability of new placards for disabled veterans and Purple Heart recipients which will exempt them from municipal parking meter fees. Read the press release for more details.

New York Law Requiring Hand On Wheel Stymies Pace Of Self-Driving Cars

In Arizona, Google's spinoff company is looking to enroll hundreds of people for free rides in self-driving vehicles. In California, 36 companies — including Intel, Toyota, Uber and Ford – have been approved over the past three years to conduct tests on autonomous vehicles. Read the article at buffalonews.com.

Pennsylvania Lawmaker Pens Hands-Free Driving Bill

A Pennsylvania legislator is proposing a law to ban drivers from talking on cell phones unless they're using a hands-free accessory. Read the article at abc27.com.

University of Michigan researchers want to find out what happens to humans when their vehicles decide on their own to avoid a crash. The researchers brought 80 regular people of different ages and body sizes to the Mcity driverless vehicle test site on the university's North Campus in May and June to find out. Read the article at freep.com.

Rep. Debbie Dingell Visits Ann Arbor Startups, Talks Autonomous Vehicles (Michigan)

U.S. Rep. Debbie Dingell visited the headquarters of Ann Arbor SPARK on Tuesday, Aug. 1, a day recognized as National Startup Day, to tour new companies making strides in healthcare programs and autonomous drone technology. Read the article at mlive.com.

Toyota Invests \$5M In Michigan Driverless Vehicle Testing Center

Toyota will be the first automaker to invest in the American Center for Mobility. The Japanese automaker's Toyota Motor North America and Toyota Research Institute subsidiaries are contributing \$5 million to the self-driving vehicle research center being built in Ypsilanti Township. Read the article at govtech.com.

Minnesota Planners Begin To Envision Driverless Future

Minnesota is beginning to confront what promises to be the biggest shift in urban living since cars arrived in cities a century ago: The moment drivers let go of the wheel for good. Read the article at startribune.com.

Missouri Banned License Plate List Grows

Missouri's database of banned character combinations on license plates has grown over the past 40 years to include more than 7,000 arrangements of letters and numbers deemed too offensive. Read the article at usnews.com.

Missouri Lags, Illinois Nears, Real ID Compliance

Missouri was late to the party in converting to Real ID standards, so residents should not expect to see many changes in the near future. Gov. Eric Greitens signed legislation last month to bring the state in compliance with the federal law that was passed in 2005. Read the article at whig.com.

REGION IV NEWS

California Reviews Gasoline Vehicles For Pollution: Official

The California environmental agency that probed Volkswagen AG's diesel vehicles for violating pollution-control rules is now scrutinizing whether some gasoline-powered vehicles are emitting excess pollution, according to a senior official. Read more at reuters.com.

DMV Workers Charged With Embezzlement (California)

Two former employees of the state Department of Motor Vehicles office in Weaverville have been charged with embezzlement, and a bench warrant has been issued for one who failed to appear in court. An investigator's report included in an arrest warrant affidavit on file at the Trinity County Courthouse details the investigation that led to the charges against Joanne Lynn Hall, 56, of Hayfork, and Tracy Coahran, 50, whose address is listed as Hayfork or Douglas City. Read the article in trinityjournal.com.

Colorado Has List Of Banned License Plates, And Some Are Head Scratchers

Do you like Tabasco sauce, consider yourself a lovable nerd or have an undying

affection for Pepsi products? If so, expressing yourself, at least via personalized license plates, may be difficult. Read the article at greeleytribune.com.

Nevada Officials Say Autonomous-Truck Era Drawing Near

April Sanborn was part of the Nevada Department of Motor Vehicles in 2011 when the state became the first to adopt regulations allowing the testing of autonomous vehicles. Read the article at fleetowner.com.

OTHER NEWS

Congress Is Heading for a Confrontation With Sessions Over Marijuana

Congress is heading for a confrontation with Attorney General Jeff Sessions over pot. Sessions is seeking to crack down on marijuana use while lawmakers from both parties are pushing legislation that would do the opposite. Read the article at bloomberg.com.

Adults Less Likely To Use Seat Belts In Hired Cars, Survey Finds

A new survey reveals more than a quarter of adults don't always buckle up in the back seat. Research by the Insurance Institute for Highway Safety found 91 percent of adults say they always wear their seatbelt in the front seat, but only 57 percent buckle up in hired vehicles like taxis. Read the article at cbsnews.com.

Teen Drivers Become More Reckless With Age, Study Says

U.S. teenagers are more reckless after their first few years of driving, often becoming overconfident in their abilities and putting themselves at higher risk for accidents, a new study shows. Read the article at bloomberg.com.

States Urged to Utilize Updated Traffic Crash Guideline for Better Data Collection and Reporting

With traffic fatalities on the rise, guidance on how to collect high-quality crash data becomes ever more important. Developed cooperatively by the Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA), the Model Minimum Uniform Crash Criteria (MMUCC) 5th Edition guideline has been updated to reflect the latest behavioral and technological changes impacting vehicles, drivers, and front-line data collectors. Read the GHSA press release for more details.

Self-Driving Car Demo Is The First To Cross The US- Canada Border

As a rule, self-driving car tests tend to be limited to the country where they started. But that's not how people drive -- what happens when your autonomous vehicle crosses the border? Continental and Magna plan to find out. Read the article at engadget.com.

Significant Spike In Opioid-Related Car Crash Deaths

In yet another sign of just how deadly the U.S. opioid epidemic has become, researchers report a sevenfold increase in the number of drivers killed in car crashes while under the influence of prescription painkillers. Read the article at cbsnews.com.

Federal Bills to Speed Arrival of Self-Driving Cars Could Create Safety Loopholes

As Congress considers the first federal legislation to speed development of self-driving cars, the proposed standards would be a wholesale shift in how the government guarantees safety on the roads. View the article at consumerreports.com.

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

REGION I NEWS

Four Clerks From Haymarket RMV Arrested In Alleged Identity Theft Scheme (Massachusetts)

Six people were arrested Wednesday and charged in federal court with allegedly providing stolen identification cards, drivers's licenses, and other documents to undocumented immigrants through a Registry of Motor Vehicles office in Boston, according to the US attorney's office. Read the article in bostonglobe.com.

New Hampshire DMV Announces Changes Coming To State Inspection Stickers

The New Hampshire Division of Motor Vehicles announced Tuesday that it will be changing both the look and location of state inspection stickers this year. Starting October 1, inspection stickers will be placed in the lower, driver side corner of a vehicle's windshield. Read the article at wmur.com.

NJ Assembly Approves New Driver's License Requirements

New Jersey lawmakers voted Monday to advance legislation adding new requirements to the state's graduated driver's license program for both teenage drivers and their parents. The proposed changes would be the first update to the state's GDL system in seven years and would require young, novice drivers to undergo more supervised practice before graduating to a probationary license. Read the article at burlingtoncountytimes.com.

MVC Unveils New Parking Placards for Disabled Veterans and Purple Heart Recipients (New Jersey)

New Jersey Motor Vehicle Commission (MVC) Chairman and Chief Administrator Raymond P. Martinez gathered with representatives from the New Jersey Department of Military and Veterans Affairs and local veterans groups at VFW Post 1333 in Asbury Park to announce the availability of new placards for disabled veterans and Purple Heart recipients which will exempt them from municipal parking meter fees. Read the press release for more details.

New York Law Requiring Hand On Wheel Stymies Pace Of Self-Driving Cars

In Arizona, Google's spinoff company is looking to enroll hundreds of people for free rides in self-driving vehicles. In California, 36 companies — including Intel, Toyota, Uber and Ford – have been approved over the past three years to conduct tests on autonomous vehicles. Read the article at buffalonews.com.

Pennsylvania Lawmaker Pens Hands-Free Driving Bill

A Pennsylvania legislator is proposing a law to ban drivers from talking on cell phones unless they're using a hands-free accessory. Read the article at abc27.com.

Check your Kansas driver's license. If you want to use it to fly in the United States, you will need to upgrade it before Sept. 30, 2020 – whether or not it expires by then. Read the article at kansas.com.

Legal Action Launched Over Licence Plate Fight (Manitoba)

A Winnipeg man is now preparing to go to court over an ongoing saga surrounding his choice of personal licence plates. Read the article at winnepegsun.com.

University of Michigan Slams On The Brakes Hard In Self-Driving Vehicle Research

University of Michigan researchers want to find out what happens to humans when their vehicles decide on their own to avoid a crash. The researchers brought 80 regular people of different ages and body sizes to the Mcity driverless vehicle test site on the university's North Campus in May and June to find out. Read the article at freep.com.

Rep. Debbie Dingell Visits Ann Arbor Startups, Talks Autonomous Vehicles (Michigan)

U.S. Rep. Debbie Dingell visited the headquarters of Ann Arbor SPARK on Tuesday, Aug. 1, a day recognized as National Startup Day, to tour new companies making strides in healthcare programs and autonomous drone technology. Read the article at mlive.com.

Toyota Invests \$5M In Michigan Driverless Vehicle Testing Center

Toyota will be the first automaker to invest in the American Center for Mobility. The Japanese automaker's Toyota Motor North America and Toyota Research Institute subsidiaries are contributing \$5 million to the self-driving vehicle research center being built in Ypsilanti Township. Read the article at govtech.com.

Minnesota Planners Begin To Envision Driverless Future

Minnesota is beginning to confront what promises to be the biggest shift in urban living since cars arrived in cities a century ago: The moment drivers let go of the wheel for good. Read the article at startribune.com.

Missouri Banned License Plate List Grows

Missouri's database of banned character combinations on license plates has grown over the past 40 years to include more than 7,000 arrangements of letters and numbers deemed too offensive. Read the article at usnews.com.

Missouri Lags, Illinois Nears, Real ID Compliance

Missouri was late to the party in converting to Real ID standards, so residents should not expect to see many changes in the near future. Gov. Eric Greitens signed legislation last month to bring the state in compliance with the federal law that was passed in 2005. Read the article at whig.com.

REGION IV NEWS

California Reviews Gasoline Vehicles For Pollution: Official

The California environmental agency that probed Volkswagen AG's diesel vehicles for violating pollution-control rules is now scrutinizing whether some gasoline-powered vehicles are emitting excess pollution, according to a senior official. Read more at reuters.com.

DMV Workers Charged With Embezzlement (California)

Two former employees of the state Department of Motor Vehicles office in Weaverville have been charged with embezzlement, and a bench warrant has been issued for one who failed to appear in court. An investigator's report included in an arrest warrant affidavit on file at the Trinity County Courthouse details the investigation that led to the charges against Joanne Lynn Hall, 56, of Hayfork, and Tracy Coahran, 50, whose address is listed as Hayfork or Douglas City. Read the article in trinityjournal.com.

Colorado Has List Of Banned License Plates, And Some Are Head Scratchers

Do you like Tabasco sauce, consider yourself a lovable nerd or have an undying

affection for Pepsi products? If so, expressing yourself, at least via personalized license plates, may be difficult. Read the article at greeleytribune.com.

Nevada Officials Say Autonomous-Truck Era Drawing Near

April Sanborn was part of the Nevada Department of Motor Vehicles in 2011 when the state became the first to adopt regulations allowing the testing of autonomous vehicles. Read the article at fleetowner.com.

OTHER NEWS

Congress Is Heading for a Confrontation With Sessions Over Marijuana

Congress is heading for a confrontation with Attorney General Jeff Sessions over pot. Sessions is seeking to crack down on marijuana use while lawmakers from both parties are pushing legislation that would do the opposite. Read the article at bloomberg.com.

Adults Less Likely To Use Seat Belts In Hired Cars, Survey Finds

A new survey reveals more than a quarter of adults don't always buckle up in the back seat. Research by the Insurance Institute for Highway Safety found 91 percent of adults say they always wear their seatbelt in the front seat, but only 57 percent buckle up in hired vehicles like taxis. Read the article at cbsnews.com.

Teen Drivers Become More Reckless With Age, Study Says

U.S. teenagers are more reckless after their first few years of driving, often becoming overconfident in their abilities and putting themselves at higher risk for accidents, a new study shows. Read the article at bloomberg.com.

States Urged to Utilize Updated Traffic Crash Guideline for Better Data Collection and Reporting

With traffic fatalities on the rise, guidance on how to collect high-quality crash data becomes ever more important. Developed cooperatively by the Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA), the Model Minimum Uniform Crash Criteria (MMUCC) 5th Edition guideline has been updated to reflect the latest behavioral and technological changes impacting vehicles, drivers, and front-line data collectors. Read the GHSA press release for more details.

Self-Driving Car Demo Is The First To Cross The US- Canada Border

As a rule, self-driving car tests tend to be limited to the country where they started. But that's not how people drive -- what happens when your autonomous vehicle crosses the border? Continental and Magna plan to find out. Read the article at engadget.com.

Significant Spike In Opioid-Related Car Crash Deaths

In yet another sign of just how deadly the U.S. opioid epidemic has become, researchers report a sevenfold increase in the number of drivers killed in car crashes while under the influence of prescription painkillers. Read the article at cbsnews.com.

Federal Bills to Speed Arrival of Self-Driving Cars Could Create Safety Loopholes

As Congress considers the first federal legislation to speed development of self-driving cars, the proposed standards would be a wholesale shift in how the government guarantees safety on the roads. View the article at consumerreports.com.

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

Bill Signed To Allow Deaf People To Designate Status On Driver's License (North Carolina)

Deaf people or those who are hard of hearing can now have a symbol on their driver's license that designates their hearing challenges. Read the article at wfae.org.

Former DMV Worker Accused Of Defrauding State (NC)

A former N.C. Division of Motor Vehicles employee has been accused of using government computers to defraud the state. Cynthia Gibson, 42, of the 200 block of Usher Lane in Newton Grove, was arrested July 19 and charged with four counts of accessing government computers to defraud state, common law forgery, obtain property under false pretense and notary administering false information under oath, an arrest warrant said. Read the article at fayobserver.com.

Need a Texas Driver's License? You'll Have To Take A Distracted Driving Course

Not knowing about the dangers of texting and driving won't be an option for young drivers in Texas beginning Sept. 1. Starting next month, anyone 18 and over who wants to get a driver's license in the state will be required to take the "Impact Texas Young Drivers" course, the Department of Public Safety said in a news release Thursday. Read the article at star-telegram.com.

REGION III NEWS

Uncertified CDL Schools May Compromise Road Safety (Kansas/Missouri)

A quick search of CDL or commercial driver's license training programs in the Kansas City area brings up several businesses. 41 Action News quickly found several of them are not certified in both Kansas and Missouri. Read the article at kshb.com.

You May Need To Renew Your Driver's License Early If You Want To Fly (Kansas)

Check your Kansas driver's license. If you want to use it to fly in the United States, you will need to upgrade it before Sept. 30, 2020 – whether or not it expires by then. Read the article at kansas.com.

Legal Action Launched Over Licence Plate Fight (Manitoba)

A Winnipeg man is now preparing to go to court over an ongoing saga surrounding his choice of personal licence plates. Read the article at winnepegsun.com.

University of Michigan Slams On The Brakes Hard In Self-Driving Vehicle Research

University of Michigan researchers want to find out what happens to humans when their vehicles decide on their own to avoid a crash. The researchers brought 80 regular people of different ages and body sizes to the Mcity driverless vehicle test site on the university's North Campus in May and June to find out. Read the article at freep.com.

Rep. Debbie Dingell Visits Ann Arbor Startups, Talks Autonomous Vehicles (Michigan)

U.S. Rep. Debbie Dingell visited the headquarters of Ann Arbor SPARK on Tuesday, Aug. 1, a day recognized as National Startup Day, to tour new companies making strides in healthcare programs and autonomous drone technology. Read the article at mlive.com.

Toyota Invests \$5M In Michigan Driverless Vehicle Testing Center

Toyota will be the first automaker to invest in the American Center for Mobility. The Japanese automaker's Toyota Motor North America and Toyota Research Institute subsidiaries are contributing \$5 million to the self-driving vehicle research center being built in Ypsilanti Township. Read the article at govtech.com.

Minnesota Planners Begin To Envision Driverless Future

Minnesota is beginning to confront what promises to be the biggest shift in urban living since cars arrived in cities a century ago: The moment drivers let go of the wheel for good. Read the article at startribune.com.

Missouri Banned License Plate List Grows

Missouri's database of banned character combinations on license plates has grown over the past 40 years to include more than 7,000 arrangements of letters and numbers deemed too offensive. Read the article at usnews.com.

Missouri Lags, Illinois Nears, Real ID Compliance

Missouri was late to the party in converting to Real ID standards, so residents should not expect to see many changes in the near future. Gov. Eric Greitens signed legislation last month to bring the state in compliance with the federal law that was passed in 2005. Read the article at whig.com.

REGION IV NEWS

California Reviews Gasoline Vehicles For Pollution: Official

The California environmental agency that probed Volkswagen AG's diesel vehicles for violating pollution-control rules is now scrutinizing whether some gasoline-powered vehicles are emitting excess pollution, according to a senior official. Read more at reuters.com.

DMV Workers Charged With Embezzlement (California)

Two former employees of the state Department of Motor Vehicles office in Weaverville have been charged with embezzlement, and a bench warrant has been issued for one who failed to appear in court. An investigator's report included in an arrest warrant affidavit on file at the Trinity County Courthouse details the investigation that led to the charges against Joanne Lynn Hall, 56, of Hayfork, and Tracy Coahran, 50, whose address is listed as Hayfork or Douglas City. Read the article in trinityjournal.com.

Colorado Has List Of Banned License Plates, And Some Are Head Scratchers

Do you like Tabasco sauce, consider yourself a lovable nerd or have an undying

affection for Pepsi products? If so, expressing yourself, at least via personalized license plates, may be difficult. Read the article at greeleytribune.com.

Nevada Officials Say Autonomous-Truck Era Drawing Near

April Sanborn was part of the Nevada Department of Motor Vehicles in 2011 when the state became the first to adopt regulations allowing the testing of autonomous vehicles. Read the article at fleetowner.com.

OTHER NEWS

Congress Is Heading for a Confrontation With Sessions Over Marijuana

Congress is heading for a confrontation with Attorney General Jeff Sessions over pot. Sessions is seeking to crack down on marijuana use while lawmakers from both parties are pushing legislation that would do the opposite. Read the article at bloomberg.com.

Adults Less Likely To Use Seat Belts In Hired Cars, Survey Finds

A new survey reveals more than a quarter of adults don't always buckle up in the back seat. Research by the Insurance Institute for Highway Safety found 91 percent of adults say they always wear their seatbelt in the front seat, but only 57 percent buckle up in hired vehicles like taxis. Read the article at cbsnews.com.

Teen Drivers Become More Reckless With Age, Study Says

U.S. teenagers are more reckless after their first few years of driving, often becoming overconfident in their abilities and putting themselves at higher risk for accidents, a new study shows. Read the article at bloomberg.com.

States Urged to Utilize Updated Traffic Crash Guideline for Better Data Collection and Reporting

With traffic fatalities on the rise, guidance on how to collect high-quality crash data becomes ever more important. Developed cooperatively by the Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA), the Model Minimum Uniform Crash Criteria (MMUCC) 5th Edition guideline has been updated to reflect the latest behavioral and technological changes impacting vehicles, drivers, and front-line data collectors. Read the GHSA press release for more details.

Self-Driving Car Demo Is The First To Cross The US- Canada Border

As a rule, self-driving car tests tend to be limited to the country where they started. But that's not how people drive -- what happens when your autonomous vehicle crosses the border? Continental and Magna plan to find out. Read the article at engadget.com.

Significant Spike In Opioid-Related Car Crash Deaths

In yet another sign of just how deadly the U.S. opioid epidemic has become, researchers report a sevenfold increase in the number of drivers killed in car crashes while under the influence of prescription painkillers. Read the article at cbsnews.com.

Federal Bills to Speed Arrival of Self-Driving Cars Could Create Safety Loopholes

As Congress considers the first federal legislation to speed development of self-driving cars, the proposed standards would be a wholesale shift in how the government guarantees safety on the roads. View the article at consumerreports.com.

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

REGION I NEWS

Four Clerks From Haymarket RMV Arrested In Alleged Identity Theft Scheme (Massachusetts)

Six people were arrested Wednesday and charged in federal court with allegedly providing stolen identification cards, drivers's licenses, and other documents to undocumented immigrants through a Registry of Motor Vehicles office in Boston, according to the US attorney's office. Read the article in bostonglobe.com.

New Hampshire DMV Announces Changes Coming To State Inspection Stickers

The New Hampshire Division of Motor Vehicles announced Tuesday that it will be changing both the look and location of state inspection stickers this year. Starting October 1, inspection stickers will be placed in the lower, driver side corner of a vehicle's windshield. Read the article at wmur.com.

NJ Assembly Approves New Driver's License Requirements

New Jersey lawmakers voted Monday to advance legislation adding new requirements to the state's graduated driver's license program for both teenage drivers and their parents. The proposed changes would be the first update to the state's GDL system in seven years and would require young, novice drivers to undergo more supervised practice before graduating to a probationary license. Read the article at burlingtoncountytimes.com.

MVC Unveils New Parking Placards for Disabled Veterans and Purple Heart Recipients (New Jersey)

New Jersey Motor Vehicle Commission (MVC) Chairman and Chief Administrator Raymond P. Martinez gathered with representatives from the New Jersey Department of Military and Veterans Affairs and local veterans groups at VFW Post 1333 in Asbury Park to announce the availability of new placards for disabled veterans and Purple Heart recipients which will exempt them from municipal parking meter fees. Read the press release for more details.

New York Law Requiring Hand On Wheel Stymies Pace Of Self-Driving Cars

In Arizona, Google's spinoff company is looking to enroll hundreds of people for free rides in self-driving vehicles. In California, 36 companies — including Intel, Toyota, Uber and Ford – have been approved over the past three years to conduct tests on autonomous vehicles. Read the article at buffalonews.com.

Pennsylvania Lawmaker Pens Hands-Free Driving Bill

A Pennsylvania legislator is proposing a law to ban drivers from talking on cell phones unless they're using a hands-free accessory. Read the article at abc27.com.

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

REGION I NEWS

Four Clerks From Haymarket RMV Arrested In Alleged Identity Theft Scheme (Massachusetts)

Six people were arrested Wednesday and charged in federal court with allegedly providing stolen identification cards, drivers's licenses, and other documents to undocumented immigrants through a Registry of Motor Vehicles office in Boston, according to the US attorney's office. Read the article in bostonglobe.com.

New Hampshire DMV Announces Changes Coming To State Inspection Stickers

The New Hampshire Division of Motor Vehicles announced Tuesday that it will be changing both the look and location of state inspection stickers this year. Starting October 1, inspection stickers will be placed in the lower, driver side corner of a vehicle's windshield. Read the article at wmur.com.

NJ Assembly Approves New Driver's License Requirements

New Jersey lawmakers voted Monday to advance legislation adding new requirements to the state's graduated driver's license program for both teenage drivers and their parents. The proposed changes would be the first update to the state's GDL system in seven years and would require young, novice drivers to undergo more supervised practice before graduating to a probationary license. Read the article at burlingtoncountytimes.com.

MVC Unveils New Parking Placards for Disabled Veterans and Purple Heart Recipients (New Jersey)

New Jersey Motor Vehicle Commission (MVC) Chairman and Chief Administrator Raymond P. Martinez gathered with representatives from the New Jersey Department of Military and Veterans Affairs and local veterans groups at VFW Post 1333 in Asbury Park to announce the availability of new placards for disabled veterans and Purple Heart recipients which will exempt them from municipal parking meter fees. Read the press release for more details.

New York Law Requiring Hand On Wheel Stymies Pace Of Self-Driving Cars

In Arizona, Google's spinoff company is looking to enroll hundreds of people for free rides in self-driving vehicles. In California, 36 companies — including Intel, Toyota, Uber and Ford – have been approved over the past three years to conduct tests on autonomous vehicles. Read the article at buffalonews.com.

Pennsylvania Lawmaker Pens Hands-Free Driving Bill

A Pennsylvania legislator is proposing a law to ban drivers from talking on cell phones unless they're using a hands-free accessory. Read the article at abc27.com.

AAMVA RFP 16-074: DevOps Implementation in AAMVA Dev/QA Environment

Due: August 7, 2017

PennDOT to Start Suspending Vehicle Registrations for Unpaid Tolls

The new state law, Act 165, which was approved last fall, takes effect this Friday. Any drivers with unpaid tolls greater than \$500 or who have at least six toll violations are at risk for vehicle registration suspension. Read the article at ellwoodcity.org.

REGION II NEWS

Florida Driver's License And ID Card Changes Begin Tuesday

Starting Tuesday, the Florida Department of Highway Safety and Motor Vehicles will begin issuing a new, Florida driver license and ID card that officials say will be much more secure. Read the article at gainesville.com.

Bill Signed To Allow Deaf People To Designate Status On Driver's License (North Carolina)

Deaf people or those who are hard of hearing can now have a symbol on their driver's license that designates their hearing challenges. Read the article at wfae.org.

Former DMV Worker Accused Of Defrauding State (NC)

A former N.C. Division of Motor Vehicles employee has been accused of using government computers to defraud the state. Cynthia Gibson, 42, of the 200 block of Usher Lane in Newton Grove, was arrested July 19 and charged with four counts of accessing government computers to defraud state, common law forgery, obtain property under false pretense and notary administering false information under oath, an arrest warrant said. Read the article at fayobserver.com.

Need a Texas Driver's License? You'll Have To Take A Distracted Driving Course

Not knowing about the dangers of texting and driving won't be an option for young drivers in Texas beginning Sept. 1. Starting next month, anyone 18 and over who wants to get a driver's license in the state will be required to take the "Impact Texas Young Drivers" course, the Department of Public Safety said in a news release Thursday. Read the article at star-telegram.com.

REGION III NEWS

Uncertified CDL Schools May Compromise Road Safety (Kansas/Missouri)

A quick search of CDL or commercial driver's license training programs in the Kansas City area brings up several businesses. 41 Action News quickly found several of them are not certified in both Kansas and Missouri. Read the article at kshb.com.

You May Need To Renew Your Driver's License Early If You Want To Fly (Kansas)

Check your Kansas driver's license. If you want to use it to fly in the United States, you will need to upgrade it before Sept. 30, 2020 – whether or not it expires by then. Read the article at kansas.com.

Legal Action Launched Over Licence Plate Fight (Manitoba)

A Winnipeg man is now preparing to go to court over an ongoing saga surrounding his choice of personal licence plates. Read the article at winnepegsun.com.

University of Michigan Slams On The Brakes Hard In Self-Driving Vehicle Research

University of Michigan researchers want to find out what happens to humans when their vehicles decide on their own to avoid a crash. The researchers brought 80 regular people of different ages and body sizes to the Mcity driverless vehicle test site on the university's North Campus in May and June to find out. Read the article at freep.com.

Rep. Debbie Dingell Visits Ann Arbor Startups, Talks Autonomous Vehicles (Michigan)

U.S. Rep. Debbie Dingell visited the headquarters of Ann Arbor SPARK on Tuesday, Aug. 1, a day recognized as National Startup Day, to tour new companies making strides in healthcare programs and autonomous drone technology. Read the article at mlive.com.

Toyota Invests \$5M In Michigan Driverless Vehicle Testing Center

Toyota will be the first automaker to invest in the American Center for Mobility. The Japanese automaker's Toyota Motor North America and Toyota Research Institute subsidiaries are contributing \$5 million to the self-driving vehicle research center being built in Ypsilanti Township. Read the article at govtech.com.

Minnesota Planners Begin To Envision Driverless Future

Minnesota is beginning to confront what promises to be the biggest shift in urban living since cars arrived in cities a century ago: The moment drivers let go of the wheel for good. Read the article at startribune.com.

Missouri Banned License Plate List Grows

Missouri's database of banned character combinations on license plates has grown over the past 40 years to include more than 7,000 arrangements of letters and numbers deemed too offensive. Read the article at usnews.com.

Missouri Lags, Illinois Nears, Real ID Compliance

Missouri was late to the party in converting to Real ID standards, so residents should not expect to see many changes in the near future. Gov. Eric Greitens signed legislation last month to bring the state in compliance with the federal law that was passed in 2005. Read the article at whig.com.

REGION IV NEWS

California Reviews Gasoline Vehicles For Pollution: Official

The California environmental agency that probed Volkswagen AG's diesel vehicles for violating pollution-control rules is now scrutinizing whether some gasoline-powered vehicles are emitting excess pollution, according to a senior official. Read more at reuters.com.

DMV Workers Charged With Embezzlement (California)

Two former employees of the state Department of Motor Vehicles office in Weaverville have been charged with embezzlement, and a bench warrant has been issued for one who failed to appear in court. An investigator's report included in an arrest warrant affidavit on file at the Trinity County Courthouse details the investigation that led to the charges against Joanne Lynn Hall, 56, of Hayfork, and Tracy Coahran, 50, whose address is listed as Hayfork or Douglas City. Read the article in trinityjournal.com.

Colorado Has List Of Banned License Plates, And Some Are Head Scratchers

Do you like Tabasco sauce, consider yourself a lovable nerd or have an undying

affection for Pepsi products? If so, expressing yourself, at least via personalized license plates, may be difficult. Read the article at greeleytribune.com.

Nevada Officials Say Autonomous-Truck Era Drawing Near

April Sanborn was part of the Nevada Department of Motor Vehicles in 2011 when the state became the first to adopt regulations allowing the testing of autonomous vehicles. Read the article at fleetowner.com.

OTHER NEWS

Congress Is Heading for a Confrontation With Sessions Over Marijuana

Congress is heading for a confrontation with Attorney General Jeff Sessions over pot. Sessions is seeking to crack down on marijuana use while lawmakers from both parties are pushing legislation that would do the opposite. Read the article at bloomberg.com.

Adults Less Likely To Use Seat Belts In Hired Cars, Survey Finds

A new survey reveals more than a quarter of adults don't always buckle up in the back seat. Research by the Insurance Institute for Highway Safety found 91 percent of adults say they always wear their seatbelt in the front seat, but only 57 percent buckle up in hired vehicles like taxis. Read the article at cbsnews.com.

Teen Drivers Become More Reckless With Age, Study Says

U.S. teenagers are more reckless after their first few years of driving, often becoming overconfident in their abilities and putting themselves at higher risk for accidents, a new study shows. Read the article at bloomberg.com.

States Urged to Utilize Updated Traffic Crash Guideline for Better Data Collection and Reporting

With traffic fatalities on the rise, guidance on how to collect high-quality crash data becomes ever more important. Developed cooperatively by the Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA), the Model Minimum Uniform Crash Criteria (MMUCC) 5th Edition guideline has been updated to reflect the latest behavioral and technological changes impacting vehicles, drivers, and front-line data collectors. Read the GHSA press release for more details.

Self-Driving Car Demo Is The First To Cross The US- Canada Border

As a rule, self-driving car tests tend to be limited to the country where they started. But that's not how people drive -- what happens when your autonomous vehicle crosses the border? Continental and Magna plan to find out. Read the article at engadget.com.

Significant Spike In Opioid-Related Car Crash Deaths

In yet another sign of just how deadly the U.S. opioid epidemic has become, researchers report a sevenfold increase in the number of drivers killed in car crashes while under the influence of prescription painkillers. Read the article at cbsnews.com.

Federal Bills to Speed Arrival of Self-Driving Cars Could Create Safety Loopholes

As Congress considers the first federal legislation to speed development of self-driving cars, the proposed standards would be a wholesale shift in how the government guarantees safety on the roads. View the article at consumerreports.com.

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

REGION I NEWS

Four Clerks From Haymarket RMV Arrested In Alleged Identity Theft Scheme (Massachusetts)

Six people were arrested Wednesday and charged in federal court with allegedly providing stolen identification cards, drivers's licenses, and other documents to undocumented immigrants through a Registry of Motor Vehicles office in Boston, according to the US attorney's office. Read the article in bostonglobe.com.

New Hampshire DMV Announces Changes Coming To State Inspection Stickers

The New Hampshire Division of Motor Vehicles announced Tuesday that it will be changing both the look and location of state inspection stickers this year. Starting October 1, inspection stickers will be placed in the lower, driver side corner of a vehicle's windshield. Read the article at wmur.com.

NJ Assembly Approves New Driver's License Requirements

New Jersey lawmakers voted Monday to advance legislation adding new requirements to the state's graduated driver's license program for both teenage drivers and their parents. The proposed changes would be the first update to the state's GDL system in seven years and would require young, novice drivers to undergo more supervised practice before graduating to a probationary license. Read the article at burlingtoncountytimes.com.

MVC Unveils New Parking Placards for Disabled Veterans and Purple Heart Recipients (New Jersey)

New Jersey Motor Vehicle Commission (MVC) Chairman and Chief Administrator Raymond P. Martinez gathered with representatives from the New Jersey Department of Military and Veterans Affairs and local veterans groups at VFW Post 1333 in Asbury Park to announce the availability of new placards for disabled veterans and Purple Heart recipients which will exempt them from municipal parking meter fees. Read the press release for more details.

New York Law Requiring Hand On Wheel Stymies Pace Of Self-Driving Cars

In Arizona, Google's spinoff company is looking to enroll hundreds of people for free rides in self-driving vehicles. In California, 36 companies — including Intel, Toyota, Uber and Ford – have been approved over the past three years to conduct tests on autonomous vehicles. Read the article at buffalonews.com.

Pennsylvania Lawmaker Pens Hands-Free Driving Bill

A Pennsylvania legislator is proposing a law to ban drivers from talking on cell phones unless they're using a hands-free accessory. Read the article at abc27.com.

AAMVA RFP 16-074: DevOps Implementation in AAMVA Dev/QA Environment

Due: August 7, 2017

PennDOT to Start Suspending Vehicle Registrations for Unpaid Tolls

The new state law, Act 165, which was approved last fall, takes effect this Friday. Any drivers with unpaid tolls greater than \$500 or who have at least six toll violations are at risk for vehicle registration suspension. Read the article at ellwoodcity.org.

REGION II NEWS

Florida Driver's License And ID Card Changes Begin Tuesday

Starting Tuesday, the Florida Department of Highway Safety and Motor Vehicles will begin issuing a new, Florida driver license and ID card that officials say will be much more secure. Read the article at gainesville.com.

Bill Signed To Allow Deaf People To Designate Status On Driver's License (North Carolina)

Deaf people or those who are hard of hearing can now have a symbol on their driver's license that designates their hearing challenges. Read the article at wfae.org.

Former DMV Worker Accused Of Defrauding State (NC)

A former N.C. Division of Motor Vehicles employee has been accused of using government computers to defraud the state. Cynthia Gibson, 42, of the 200 block of Usher Lane in Newton Grove, was arrested July 19 and charged with four counts of accessing government computers to defraud state, common law forgery, obtain property under false pretense and notary administering false information under oath, an arrest warrant said. Read the article at fayobserver.com.

Need a Texas Driver's License? You'll Have To Take A Distracted Driving Course

Not knowing about the dangers of texting and driving won't be an option for young drivers in Texas beginning Sept. 1. Starting next month, anyone 18 and over who wants to get a driver's license in the state will be required to take the "Impact Texas Young Drivers" course, the Department of Public Safety said in a news release Thursday. Read the article at star-telegram.com.

REGION III NEWS

Uncertified CDL Schools May Compromise Road Safety (Kansas/Missouri)

A quick search of CDL or commercial driver's license training programs in the Kansas City area brings up several businesses. 41 Action News quickly found several of them are not certified in both Kansas and Missouri. Read the article at kshb.com.

You May Need To Renew Your Driver's License Early If You Want To Fly (Kansas)

Check your Kansas driver's license. If you want to use it to fly in the United States, you will need to upgrade it before Sept. 30, 2020 – whether or not it expires by then. Read the article at kansas.com.

Legal Action Launched Over Licence Plate Fight (Manitoba)

A Winnipeg man is now preparing to go to court over an ongoing saga surrounding his choice of personal licence plates. Read the article at winnepegsun.com.

University of Michigan Slams On The Brakes Hard In Self-Driving Vehicle Research

University of Michigan researchers want to find out what happens to humans when their vehicles decide on their own to avoid a crash. The researchers brought 80 regular people of different ages and body sizes to the Mcity driverless vehicle test site on the university's North Campus in May and June to find out. Read the article at freep.com.

Rep. Debbie Dingell Visits Ann Arbor Startups, Talks Autonomous Vehicles (Michigan)

U.S. Rep. Debbie Dingell visited the headquarters of Ann Arbor SPARK on Tuesday, Aug. 1, a day recognized as National Startup Day, to tour new companies making strides in healthcare programs and autonomous drone technology. Read the article at mlive.com.

Toyota Invests \$5M In Michigan Driverless Vehicle Testing Center

Toyota will be the first automaker to invest in the American Center for Mobility. The Japanese automaker's Toyota Motor North America and Toyota Research Institute subsidiaries are contributing \$5 million to the self-driving vehicle research center being built in Ypsilanti Township. Read the article at govtech.com.

Minnesota Planners Begin To Envision Driverless Future

Minnesota is beginning to confront what promises to be the biggest shift in urban living since cars arrived in cities a century ago: The moment drivers let go of the wheel for good. Read the article at startribune.com.

Missouri Banned License Plate List Grows

Missouri's database of banned character combinations on license plates has grown over the past 40 years to include more than 7,000 arrangements of letters and numbers deemed too offensive. Read the article at usnews.com.

Missouri Lags, Illinois Nears, Real ID Compliance

Missouri was late to the party in converting to Real ID standards, so residents should not expect to see many changes in the near future. Gov. Eric Greitens signed legislation last month to bring the state in compliance with the federal law that was passed in 2005. Read the article at whig.com.

REGION IV NEWS

California Reviews Gasoline Vehicles For Pollution: Official

The California environmental agency that probed Volkswagen AG's diesel vehicles for violating pollution-control rules is now scrutinizing whether some gasoline-powered vehicles are emitting excess pollution, according to a senior official. Read more at reuters.com.

DMV Workers Charged With Embezzlement (California)

Two former employees of the state Department of Motor Vehicles office in Weaverville have been charged with embezzlement, and a bench warrant has been issued for one who failed to appear in court. An investigator's report included in an arrest warrant affidavit on file at the Trinity County Courthouse details the investigation that led to the charges against Joanne Lynn Hall, 56, of Hayfork, and Tracy Coahran, 50, whose address is listed as Hayfork or Douglas City. Read the article in trinityjournal.com.

Colorado Has List Of Banned License Plates, And Some Are Head Scratchers

Do you like Tabasco sauce, consider yourself a lovable nerd or have an undying

affection for Pepsi products? If so, expressing yourself, at least via personalized license plates, may be difficult. Read the article at greeleytribune.com.

Nevada Officials Say Autonomous-Truck Era Drawing Near

April Sanborn was part of the Nevada Department of Motor Vehicles in 2011 when the state became the first to adopt regulations allowing the testing of autonomous vehicles. Read the article at fleetowner.com.

OTHER NEWS

Congress Is Heading for a Confrontation With Sessions Over Marijuana

Congress is heading for a confrontation with Attorney General Jeff Sessions over pot. Sessions is seeking to crack down on marijuana use while lawmakers from both parties are pushing legislation that would do the opposite. Read the article at bloomberg.com.

Adults Less Likely To Use Seat Belts In Hired Cars, Survey Finds

A new survey reveals more than a quarter of adults don't always buckle up in the back seat. Research by the Insurance Institute for Highway Safety found 91 percent of adults say they always wear their seatbelt in the front seat, but only 57 percent buckle up in hired vehicles like taxis. Read the article at cbsnews.com.

Teen Drivers Become More Reckless With Age, Study Says

U.S. teenagers are more reckless after their first few years of driving, often becoming overconfident in their abilities and putting themselves at higher risk for accidents, a new study shows. Read the article at bloomberg.com.

States Urged to Utilize Updated Traffic Crash Guideline for Better Data Collection and Reporting

With traffic fatalities on the rise, guidance on how to collect high-quality crash data becomes ever more important. Developed cooperatively by the Governors Highway Safety Association (GHSA) and the National Highway Traffic Safety Administration (NHTSA), the Model Minimum Uniform Crash Criteria (MMUCC) 5th Edition guideline has been updated to reflect the latest behavioral and technological changes impacting vehicles, drivers, and front-line data collectors. Read the GHSA press release for more details.

Self-Driving Car Demo Is The First To Cross The US-Canada Border

As a rule, self-driving car tests tend to be limited to the country where they started. But that's not how people drive -- what happens when your autonomous vehicle crosses the border? Continental and Magna plan to find out. Read the article at engadget.com.

Significant Spike In Opioid-Related Car Crash Deaths

In yet another sign of just how deadly the U.S. opioid epidemic has become, researchers report a sevenfold increase in the number of drivers killed in car crashes while under the influence of prescription painkillers. Read the article at cbsnews.com.

Federal Bills to Speed Arrival of Self-Driving Cars Could Create Safety Loopholes

As Congress considers the first federal legislation to speed development of self-driving cars, the proposed standards would be a wholesale shift in how the government guarantees safety on the roads. View the article at consumerreports.com.

Automated Vehicles Working Group Meets in Michigan

The <u>Automated Vehicles Working Group</u> met in Ann Arbor, Michigan, July 22-27, to continue to prepare the Jurisdictional Guidelines for the Safe Testing and Deployment of Highly Automated Vehicles, a report that is expected to be published at the end of this year. While in Ann Arborl the group visited <u>Mcity</u>,--a model facility at the University of Michigan that will allow researchers to test emerging concepts in connected and automated vehicles in both off-road and onroad settings. During the visit the group had the chance to ride in a <u>NAVYA Shuttle</u>, (a Level 4 automated vehicle), and also held an informational meeting with a representative from UBER to discuss their automated vehicle plans.

CDL Facial Recognition LEAN Workshop

On July 19th and 20th, the Midwest multi-state CDL facial recognition jurisdictions came together for a LEAN workshop to develop a streamlined process for coordinating facial recognition investigations in preparation for program implementation. LEAN is a method of developing a procedure with high value and less resources to provide the most efficient process possible. Participants from the states of South Dakota, Nebraska, Iowa, and Illinois worked with LEAN trainers at the Iowa State University (ISU) Center for Transportation Research and Education Facility in Ames, Iowa. During the two days the team worked to accomplish goals and objectives outlined in the project scope and created a flowchart to develop an effective process in which to communicate and coordinate facial recognition cases among jurisdictions. At the completion of the workshop, participants were provided a variety of resources to utilize as they plan to implement the multi-state facial recognition program later this year.

Minnesota Becomes the First State to Implement NMVTIS Web Services

After more than one year of intense software development using an agile methodology, Minnesota has taken a giant step forward being the first jurisdiction to complete a NMVTIS Web Services implementation. This effort coincides with Minnesota's Licensing and Registration System (MNLARS) project, a multi-year initiative of Driver and Vehicle Services (DVS) to replace its 30-year old legacy IT system. Web Services allow states to manage complex data exchanges with the Central Site more effectively using modern web based technologies and industry

REGION I NEWS

Four Clerks From Haymarket RMV Arrested In Alleged Identity Theft Scheme (Massachusetts)

Six people were arrested Wednesday and charged in federal court with allegedly providing stolen identification cards, drivers's licenses, and other documents to undocumented immigrants through a Registry of Motor Vehicles office in Boston, according to the US attorney's office. Read the article in bostonglobe.com.

New Hampshire DMV Announces Changes Coming To State Inspection Stickers

The New Hampshire Division of Motor Vehicles announced Tuesday that it will be changing both the look and location of state inspection stickers this year. Starting October 1, inspection stickers will be placed in the lower, driver side corner of a vehicle's windshield. Read the article at wmur.com.

NJ Assembly Approves New Driver's License Requirements

New Jersey lawmakers voted Monday to advance legislation adding new requirements to the state's graduated driver's license program for both teenage drivers and their parents. The proposed changes would be the first update to the state's GDL system in seven years and would require young, novice drivers to undergo more supervised practice before graduating to a probationary license. Read the article at burlingtoncountytimes.com.

MVC Unveils New Parking Placards for Disabled Veterans and Purple Heart Recipients (New Jersey)

New Jersey Motor Vehicle Commission (MVC) Chairman and Chief Administrator Raymond P. Martinez gathered with representatives from the New Jersey Department of Military and Veterans Affairs and local veterans groups at VFW Post 1333 in Asbury Park to announce the availability of new placards for disabled veterans and Purple Heart recipients which will exempt them from municipal parking meter fees. Read the press release for more details.

New York Law Requiring Hand On Wheel Stymies Pace Of Self-Driving Cars

In Arizona, Google's spinoff company is looking to enroll hundreds of people for free rides in self-driving vehicles. In California, 36 companies — including Intel, Toyota, Uber and Ford – have been approved over the past three years to conduct tests on autonomous vehicles. Read the article at buffalonews.com.

Pennsylvania Lawmaker Pens Hands-Free Driving Bill

A Pennsylvania legislator is proposing a law to ban drivers from talking on cell phones unless they're using a hands-free accessory. Read the article at abc27.com.

Florida Driver's License And ID Card Changes Begin Tuesday

Starting Tuesday, the Florida Department of Highway Safety and Motor Vehicles will begin issuing a new, Florida driver license and ID card that officials say will be much more secure. Read the article at gainesville.com.

Bill Signed To Allow Deaf People To Designate Status On Driver's License (North Carolina)

Deaf people or those who are hard of hearing can now have a symbol on their driver's license that designates their hearing challenges. Read the article at wfae.org.

Former DMV Worker Accused Of Defrauding State (NC)

A former N.C. Division of Motor Vehicles employee has been accused of using government computers to defraud the state. Cynthia Gibson, 42, of the 200 block of Usher Lane in Newton Grove, was arrested July 19 and charged with four counts of accessing government computers to defraud state, common law forgery, obtain property under false pretense and notary administering false information under oath, an arrest warrant said. Read the article at fayobserver.com.

Need a Texas Driver's License? You'll Have To Take A Distracted Driving Course

Not knowing about the dangers of texting and driving won't be an option for young drivers in Texas beginning Sept. 1. Starting next month, anyone 18 and over who wants to get a driver's license in the state will be required to take the "Impact Texas Young Drivers" course, the Department of Public Safety said in a news release Thursday. Uncertified CDL Schools May Compromise Road Safety (Kansas/Missouri)

A quick search of CDL or commercial driver's license training programs in the Kansas City area brings up several businesses. 41 Action News quickly found several of them are not certified in both Kansas and Missouri. Read the article at kshb.com.

You May Need To Renew Your Driver's License Early If You Want To Fly (Kansas)

Check your Kansas driver's license. If you want to use it to fly in the United States, you will need to upgrade it before Sept. 30, 2020 – whether or not it expires by then. Read the article at kansas.com.

Legal Action Launched Over Licence Plate Fight (Manitoba)

A Winnipeg man is now preparing to go to court over an ongoing saga surrounding his choice of personal licence plates. Read the article at winnepegsun.com.

University of Michigan Slams On The Brakes Hard In Self-Driving Vehicle Research

University of Michigan researchers want to find out what happens to humans when their vehicles decide on their own to avoid a crash. The researchers brought 80 regular people of different ages and body sizes to the Mcity driverless vehicle test site on the university's North Campus in May and June to find out. Read the article at freep.com.

Rep. Debbie Dingell Visits Ann Arbor Startups, Talks Autonomous Vehicles (Michigan)

U.S. Rep. Debbie Dingell visited the headquarters of Ann Arbor SPARK on Tuesday, Aug. 1, a day recognized as National Startup Day, to tour new companies making strides in healthcare programs and autonomous drone technology. Read the article at mlive.com.

Toyota Invests \$5M In Michigan Driverless Vehicle Testing Center

Toyota will be the first automaker to invest in the American Center for Mobility. The Japanese automaker's Toyota Motor North America and Toyota Research Institute subsidiaries are contributing \$5 million to the self-driving vehicle research center being built in Ypsilanti Township. Read the article at govtech.com.

Minnesota Planners Begin To Envision Driverless Future

Minnesota is beginning to confront what promises to be the biggest shift in urban living since cars arrived in cities a century ago: The moment drivers let go of the wheel for good. Read the article at startribune.com.

Missouri Banned License Plate List Grows

Missouri's database of banned character combinations on license plates has grown over the past 40 years to include more than 7,000 arrangements of letters and numbers deemed too offensive. Read the article at usnews.com.

Missouri Lags, Illinois Nears, Real ID Compliance

Missouri was late to the party in converting to Real ID standards, so residents should not expect to see many changes in the near future. Gov. Eric Greitens signed legislation last month to bring the state in compliance with the federal law that was passed in 2005. Read the article at whig.com.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

I have to look at this in more detail and run with my BA team.

Can I send # O12?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:58 PM **To:** Syeda, Asma <<u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Sent: Friday, August 04, 2017 10:40 AM To: Gary Tancik < Gtancik@resdat.com>

Cc: Mina Peters, AK Dept. of Administration < mina.peters@alaska.gov >; Singaraju, Sruti < ssingaraju@aamva.org >

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

Yes, I remember.

But, the MPR shows the primary SSN as '988826666', and HB as '188826666'.

So wanted to check with you this discrepancy.

Thanks, Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:37 PM **To:** Syeda, Asma < <u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration < mina.peters@alaska.gov >; Singaraju, Sruti < ssingaraju@aamva.org >

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Sent: Friday, August 04, 2017 10:31 AM **To:** Gary Tancik < Gtancik@resdat.com>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Hi Asma

Where would you like to begin? Is there still an issue with Driver O MPR that we need to retry?

The fix has been applied for hazmat threat determination so we can go back to M as well as the other driver scenarios you had mentioned should have had the parameter set.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Garv,

Yes, I remember.

But, the MPR shows the primary SSN as '988826666', and HB as '188826666'.

So wanted to check with you this discrepancy.

Thanks, Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

AKA SSN /AKA Last 5 SSN and AKA SSN Type looks fine for # O11.

The HB message was sent with SSN (DDVSS6) as '188826666' but as per the DB, the SSN is '988826666' for Driver O.

Can you please look.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Sent the inquiry and received the status response messages. However, I sent SSN as 188826666 since we have validation preventing the use of SSN values that start with '9'. Let me know if you anticipate this being a problem with these tests.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Hi Asma

Where would you like to begin? Is there still an issue with Driver O MPR that we need to retry?

The fix has been applied for hazmat threat determination so we can go back to M as well as the other driver scenarios you had mentioned should have had the parameter set.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

I have to look at this in more detail and run with my BA team.

Can I send # O12?

From: Gary Tancik [mailto:Gtancik@resdat.com]

Sent: Friday, August 4, 2017 2:58 PM **To:** Syeda, Asma <<u>ASyeda@aamva.org</u>>

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

I think I see what happened.

During the CSOR I provided the 188826666 SSN for the old pointer assuming this was also the value for the P6 driver. Hence, a new SSN (DDVSS6) was not provided for the new pointer. I've attached the UD message.

Since the last 5 digits of the SSN matched apparently the UD did not error and the CSOR was allowed to complete, but left the 988826666 SSN on the MPR.

From: Syeda, Asma [mailto:ASyeda@aamva.org]

Sent: Friday, August 04, 2017 10:40 AM **To:** Gary Tancik < Gtancik@resdat.com >

Cc: Mina Peters, AK Dept. of Administration mina.peters@alaska.gov; Singaraju, Sruti ssingaraju@aamva.org

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

This email comes from an external source, so remember, Think Before You Click! Gary,

Yes, I remember.

But, the MPR shows the primary SSN as $\,^{\prime}988826666^{\prime}$, and HB as $\,^{\prime}188826666^{\prime}$.

So wanted to check with you this discrepancy.

Thanks, Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Cc: Mina Peters, AK Dept. of Administration < mina.peters@alaska.gov>; Singaraju, Sruti < ssingaraju@aamva.org>

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

You may recall I brought this to your attention during the setup of Driver O whereby we have validations in place that prevent the entry of a SSN that begins with 9. I mentioned I was instead using SSN 188826666.

During the CSOR, we saved the old SOR SSN as an alias since it was different.

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver O

Thanks. Unfortunately this will require a fix. The code currently will send 'PERM' instead of 'INDEF' for an unspecified eligibility date.

Well, did you want to venture into Driver P territory? We are quickly approaching the point where every problem will require an immediate fix. Or would you rather I take the time to resolve the Driver J problem and potentially this issue with Driver O.

Hi Asma

The hazmat threat determination will require a data base change, schedule in the next few days, so driver M will need to be skipped. This data base release will also include the N restriction on permit C for Driver L.

Can we go back to driver J, test J8?

DMV00049329

Hi Asma

The hazmat threat determination will require a data base change, schedule in the next few days, so driver M will need to be skipped. This data base release will also include the N restriction on permit C for Driver L.

Can we go back to driver J, test J8?

Hi Asma

The hazmat threat determination will require a data base change, schedule in the next few days, so driver M will need to be skipped. This data base release will also include the N restriction on permit C for Driver L.

Can we go back to driver J, test J8?

Hi Asma

The hazmat threat determination will require a data base change, schedule in the next few days, so driver M will need to be skipped. This data base release will also include the N restriction on permit C for Driver L.

Can we go back to driver J, test J8?

Hi Asma

The hazmat threat determination will require a data base change, schedule in the next few days, so driver M will need to be skipped. This data base release will also include the N restriction on permit C for Driver L.

Can we go back to driver J, test J8?

Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

AAMVA Code Dictionary (ACD) - R

Table 15. Violating Out-of-Service

FMCSR	FMCSR Description	ACD Code	
	Violating (Out-of-S	Serv
1 st conviction w/2 nd conviction w/2 nd conviction w/3 rd conviction w/NOTEs: disqual/Only ap	hazmat or in vehicle designed to transport 16 ⁺ passe win 10 yr = no less than 2 yrs or more than 5 yrs hazmat or in vehicle designed to transport 16 ⁺ passe win 10 yr (no distinction for hazmat or number of passe win 10 yr (no distinction for hazmat or number of passe win 10 yr (no distinction for hazmat or number of passe polication period must be in addition to any other presplicable when offense occurred in a CMV) on – ACD Code of withdrawal is same as ACD Code 1: 15 years from the conviction date or for as long as Violating a driver or vehicle out-of-service order while transporting hazardous materials required to be placarded or while operating a vehicle designed to transport 16 or more passengers, including the driver	enger = no le ssengers) = 1 vious period of convictio	ess than o less of dis

Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

Table 15. Violating Out-of-Service

FMCSR			
	Violating C	Out-of-S	erv
1 st conviction w/2 nd conviction w/2 nd conviction w/3 rd conviction w/ <i>NOTEs: disquality</i> For 1 st conviction	hazmat or in vehicle designed to transport 16 ⁺ passe with 10 yr = no less than 2 yrs or more than 5 yrs hazmat or in vehicle designed to transport 16 ⁺ passe with 10 yr (no distinction for hazmat or number of participation period must be in addition to any other presplicable when offense occurred in a CMV) in – ACD Code of withdrawal is same as ACD Code is 15 years from the conviction date or for as long as Violating a driver or vehicle out-of-service order while transporting hazardous materials	enger = no less ssengers) = no vious period of of conviction	ss that o less of districtions with Vice haz
	required to be placarded or while operating a vehicle designed to transport 16 or more passengers, including the driver		des

This email comes from an external source, so remember, Think Before You Click! Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

AAMVA Code Dictionary (ACD) - R

Table 15. Violating Out-of-Service

FMCSR	FMCSR Description	ACD Code	
	Violating C	ot-of-S	Serv
1 st conviction w 2 nd conviction v 2 nd conviction v 3 rd conviction v <i>NOTEs: disqual</i> <i>Only a</i> For 1 st conviction	no less than 180 days or more than 1 yr /hazmat or in vehicle designed to transport 16 ⁺ passes w/in 10 yr = no less than 2 yrs or more than 5 yrs w/hazmat or in vehicle designed to transport 16 ⁺ passes w/in 10 yr (no distinction for hazmat or number of passes diffication period must be in addition to any other presentable when offense occurred in a CMV) on – ACD Code of withdrawal is same as ACD Code d: 15 years from the conviction date or for as long as	enger = no lessengers)	ess than less of distentions
383.51(e)(1)	Violating a driver or vehicle out-of-service order while transporting hazardous materials required to be placarded or while operating a vehicle designed to transport 16 or more passengers, including the driver	B19	Vic haz des
383.51(e)(2)	Violating a driver or vehicle out-of-service order while transporting nonhazardous materials	B27	Vic

This email comes from an external source, so remember, Think Before You Click! Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

Table 15. Violating Out-of-Service

This email comes from an external source, so remember, Think Before You Click! Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

AAMVA Code Dictionary (ACD) - R

Table 15. Violating Out-of-Service

Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

Table 15. Violating Out-of-Service

FMCSR	FMCSR Description	ACD Code	
	Violating (Out-of-S	erv
1 st conviction w/2 nd conviction w/2 nd conviction w/3 rd conviction w/NOTEs: disqual/Only ap	hazmat or in vehicle designed to transport 16 ⁺ passe win 10 yr = no less than 2 yrs or more than 5 yrs hazmat or in vehicle designed to transport 16 ⁺ passe win 10 yr (no distinction for hazmat or number of passe win 10 yr (no distinction for hazmat or number of passe win 10 yr (no distinction for hazmat or number of passification period must be in addition to any other presplicable when offense occurred in a CMV) on – ACD Code of withdrawal is same as ACD Code 1: 15 years from the conviction date or for as long as Violating a driver or vehicle out-of-service order while transporting hazardous materials required to be placarded or while operating a vehicle designed to transport 16 or more passengers, including the driver	enger = no le ssengers) = n vious period of conviction	ss tha to less of dis

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver N

Gary,

Since these are two different convictions (different Conviction date, Report ID's etc.,). these should be linked to new Withdrawal.

Thanks, Asma

This email comes from an external source, so remember, Think Before You Click! Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

Table 15. Violating Out-of-Service

FMCSR	FMCSR Description	ACD Code	
	Violating (Out-of-S	erv

Gary,

B19 is fine too, since it's an Out Of Service Order.

Sending # N3.

Thanks, Asma

Subject: RE: AI - SPEXS 6.0 Baseline Structured test plan - FP-Driver N

DMV00049674

I've created a linked withdrawal. However, I noticed the conviction reported in N2 was for ACD B19 and not B27. I'm ready for N3 unless you think this is a problem.

This email comes from an external source, so remember, Think Before You Click! Gary,

For ACD Code B27, you need the withdrawal.

For the 1st conviction, the Withdrawal should be no less than 180 days or more than 1 year:

AAMVA Code Dictionary (ACD) - R

Table 15. Violating Out-of-Service

FMCSR	FMCSR Description	ACD Code	
	Violating (Out-of-S	erv
1 st conviction w/2 nd conviction w/2 nd conviction w/3 rd conviction w/NOTEs: disqual/Only ap	hazmat or in vehicle designed to transport 16 ⁺ passe win 10 yr = no less than 2 yrs or more than 5 yrs whazmat or in vehicle designed to transport 16 ⁺ passe win 10 yr (no distinction for hazmat or number of partification period must be in addition to any other presuplicable when offense occurred in a CMV) on – ACD Code of withdrawal is same as ACD Code 1: 15 years from the conviction date or for as long as Violating a driver or vehicle out-of-service order while transporting hazardous materials required to be placarded or while operating a vehicle designed to transport 16 or more	enger = no le ssengers) = n vious period of conviction	ss tha to less of dis

I am investigating the latency.

Am I required to create a linked withdrawal for the reported B27 conviction? If not, I am ready for N3.
